Welcome Message

Meetings International proudly announces the Global Experts Meeting on Clinical Diabetes and Endocrinology scheduled during August 22-23, 2018 at Tokyo, Japan. The conference emphasizes the theme ""Innovative Research on Clinical Nutrition to Confront Diabetes"

Meetings International provides an international dais for therapeutic and medical care Professionals to Exchange Ideas, Knowledge and Networking at its 100+ International Conferences.

Prevalence of Diabetes is increasing among all ages in Asia, mostly due to increases in overweight and obesity, unhealthy diet and physical inactivity. There are about 60 million people with diabetes in the Asian Region or about 10.3% of men and 9.6% of women aged 25 years and over.

Worldwide, high blood glucose kills about 3.4 million people annually. Almost 80% of these deaths occur in low- and middle-income countries, and almost half are people aged less than 70 years. WHO projects diabetes deaths will double between 2005 and 2030.

The producers of diabetic foods have presented different items with low calories, zero additives, and without sugar items for the diabetic and health concerned populace. Some of these items incorporate desserts and jams, dairy items, dietary drinks, heated items, snacks and different items. Globally, the market is now esteemed at $82 billion.

Clinical Diabetes Meeting 2018 will bring together key decision makers and innovators within this rapidly growing field. This intensive 2-Day program will focus on various fields of diabetes and nutrition.

Meetings International - Clinical Diabetes Meeting 2018 will offer you an unmatched attendee experience. In addition to the many scientific sessions and take-home case study examples, you will leave this event with many other novel development strategies. We hope you will join us in Tokyo, Japan on August 2018

Sincerely,

Operating Committee

CEO and Founder

Meetings International PTE LTD.

Who Should Attend?

- Doctors
- Scientists
- Research Scholar
- Nutraceutical industry
- Healthcare companies
- Entrepreneurs
- R&D Institutes
- Healthcare Innovators
- Clinical Researchers
- Life Science Investors
- Druggists
- Diabetes Societies and Associations
- Academic Researchers

Why Attend?

- 300 + Participation (70 Industries: 30Academia)
- 10+ Keynote Speakers
- 50+ Plenary Speakers
- 20+ Exhibitors
- 14 Innovative Educational Sessions
- 5+ Workshops
- B2B Meetings

Conference Highlights

- Physiology of Diabetes
- Clinical Diabetes and Diagnostic Approaches
- Diabetes Genetics
- Diabetes Medications and Pharmacotherapy
- Advancement of Biomarkers for Diabetes
- Emanating Focus in Diabetes Research
- Cell Therapy for Diabetes
- Nutritional Remedy
- Diabetic Nutrition and Obesity
- Pediatric Diabetes
- Gestational Diabetes
- Risk Factor and Related Disease Of Diabetes
- Diabetic Drug Market
- Clinical Trials on Diabetes
- Diabetes Education

- Your product/services gets good recognition and remuneration in the world

Sponsorship Packages

- Diamond Sponsor
- Gold Sponsor
- Silver Sponsor
- Bronze Sponsor
- Exhibition

For any other and customized packages, write to Program Manager.

About Tokyo

Tokyo officially Tokyo Metropolis, is the capital of Japan and one of its 47 prefectures. The Greater Tokyo Area is the most populous metropolitan area in the world. It is the seat of the Emperor of Japan and the Japanese government. Tokyo is in the KantÅ region on the southeastern side of the main island Honshu and includes the Izu Islands and Ogasawara Islands. Formerly known as Edo, it has been the de facto seat of government since 1603 when ShogunTokugawa Ieyasu made the city his headquarters. It officially became the capital after Emperor Meiji moved his seat to the city from the old capital of Kyoto in 1868; at that time Edo was renamed Tokyo. Tokyo Metropolis was formed in 1943 from the merger of the former Tokyo and the city of Tokyo.

Tokyo is often referred to as a city, but is officially known and governed as a "metropolitan prefecture", which differs from and combines elements of a city and a prefecture, a characteristic unique to Tokyo. The Tokyo metropolitan government administers the 23 Special Wards of Tokyo, which cover the area that was the City of Tokyo before it merged and became the metropolitan prefecture in 1943. The metropolitan government also administers 39 municipalities in the western part of the prefecture and the two outlying island chains. The population of the special wards is over 9 million people, with the total population of the prefecture exceeding 13 million. The prefecture is part of the world's most populous metropolitan area with upwards of 37.8 million people and the world's largest urban agglomeration economy. The city hosts 51 of the Fortune Global 500 companies, the highest number of any city in the world. Tokyo ranked third in the International Financial Centres Development IndexEdit. The city is also home to various television networks such as Fuji TV, Tokyo MX, TV Tokyo, TV Asahi, Nippon Television, NHK and the Tokyo Broadcasting System.

Tokyo ranked first in the Global Economic Power Index and fourth in the Global Cities Index. The city is considered an alpha+ world city – as listed by the GaWC's 2008 inventory – and in 2014, Tokyo was ranked first in the "Best overall experience" category of TripAdvisor's World City Survey (the city also ranked first in the following categories: "helpfulness of locals", "nightlife", "shopping", "local public transportation" and "cleanliness of streets"). In 2015, Tokyo was ranked as the 11th most expensive city for expatriates, according to the Mercer consulting firm, and also the world's 11th most expensive city, according to the Economist Intelligence Unit's cost-of-living survey. In 2015, Tokyo was named the Most Liveable City in the world by the magazine Monocle. The Michelin Guide has awarded Tokyo by far the most Michelin stars of any city in the world. Tokyo was ranked first out of all fifty cities in the 2015 Safe Cities Index. The 2016 edition of QS Best Student Cities ranked Tokyo as the 3rd-best city in the world to be a university student. Tokyo hosted the 1964 Summer Olympics, the 1979 G-7 summit, the 1986 G-7 summit, and the 1993 G-7 summit, and will host the 2020 Summer Olympics and the 2020 Summer Paralympics.
