Invitation

Clinical Microbiology 2018

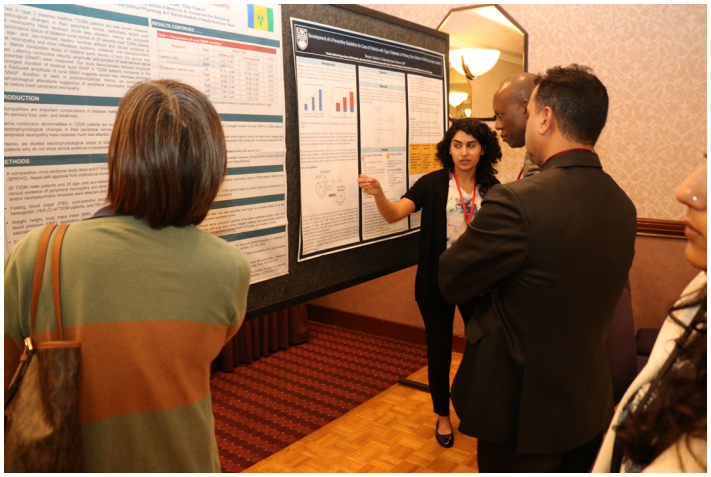

Meetings International proudly announces the ***International Conference On Clinical & Medical Microbiology*** scheduled during ***August 27-28, 2018*** in ***Vancouver, Canada***. The conference emphasizes the theme "***Exploring Innovative research in Clinical & Medical Microbiology***".

Meetings International provides an international dais for scientists and plant science professionals to Exchange Ideas, Knowledge and Networking at its **100+ International Conferences**. The importance of plants has come into spotlight in the recent years. Many of the floral species have become extinct due to the human activities. Thus, priorities are given for the plant research to produce more production to support the ever-growing population of the world.

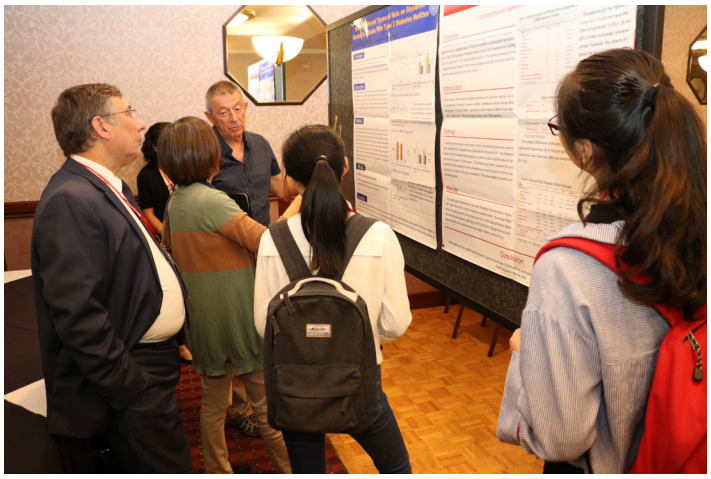

Sincerely,
Operating Committee

Explore Vancouver

Vancouver is a coastal seaport city in Canada, located in the Lower Mainland region of British Columbia. As the most populous city in the province, the 2016 census recorded 631,486 people in the city, up from 603,502 in 2011. The Greater Vancouver area had a population of 2,463,431 in 2016, making it the third-largest metropolitan area in Canada. Vancouver has the highest population density in Canada with over 5,400 people per square kilometer, which makes it the fourth-most densely populated city with over 250,000 residents in North America behind New York City, San Francisco, and Mexico City according to the 2011 census. Vancouver is one of the most ethnically and linguistically diverse cities in Canada according to that census; 52% of its residents have a first language other than English. Vancouver is classed as a Beta global city.
