

EuroSciCon

5th Edition of International conference on

Advanced Spectroscopy, Crystallography and Applications in Modern Chemistry

March 25-26, 2020
London, UK

Theme:

Unveiling the Advancements in Modern Chemistry-Crystallography and Spectroscopy

Invitation

Welcome to London, the world's most powerful, desirable, influential, visited, expensive, innovative, sustainable, investment friendly, most popular for work, and the most vegetarian-friendly city in the world. London exerts a considerable impact upon the arts, commerce, education, entertainment, fashion, finance, healthcare, media, professional services, research and development, tourism and transportation. EuroSciCon is proud to host the 5th Edition of International conference on Advanced Spectroscopy, Crystallography and Applications in Modern Chemistry. This year's theme is "Unveiling the Advancements in Modern Chemistry-Crystallography and Spectroscopy".

Crystallography 2020 will provide an unprecedented opportunity for Materials Scientists and Crystallographers of all stripes and colors to share their research with colleagues, and discuss and debate the latest advances in the field of Spectroscopy and Crystallography. We invite Material scientists, Nanotechnologists, Research Professors, Crystallographers and scientists in related Chemical engineering disciplines to come together and spread your Researches. Seasoned scientists, young researchers, mid-career professionals and just starting out are all welcome.

With a broad array of keynote presentations, panel discussions, workshops, and poster sessions, the Crystallography conference is the perfect venue not only to dive Crystal structure interests but also to expand the scope of your knowledge on Spectroscopy. 16 tracks are devoted to subjects are Crystallography, Chemical Crystallography, Advanced Crystallography, Crystallography of Novel Materials, X-Ray Crystallography, Crystal Growth, Nuclear Magnetic Resonance Crystallography (NMR crystallography), Spectroscopy, Advances in Neutron Diffraction, Biological Structure Determination, Crystallography in Biology, NMR Spectroscopy vs. X-Ray Crystallography, Crystal Engineering, Crystallography Applications, Spectroscopy Applications, Application of Modern Chemistry.

The Organizing Committee has done its best to set up a framework that we think will allow for a creative interplay of ideas. All we need now to convert the extensive program on paper to an active and vibrant materials science and Crystallography forum in person is your active participation.

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action.
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

March 25-26, 2020
London, UK

EuroSciCon

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ Materials Scientists, Crystallographers, Spectroscopy Scientists accessing the website, Crystallography 2020 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Crystallography 2020 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives
Nurture connexions
Agenda format which incorporates ample Q&A time
Partake in our revamped exhibitor expo sessions
Meet and listen to the relevant clients
Unprecedented growth creating an unparalleled market place

March 25-26, 2020
London, UK

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience
It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
World's leading industries and companies attend
Career guidance for early career researchers and students
Provides insights you need to take your research to the next level
A huge conclave of high tech and science priests

EuroSciCon

Who'd be attending?

5th Edition of International conference on Advanced Spectroscopy, Crystallography and Applications in Modern Chemistry plays host for the Multinational organizations, entrepreneurs across the globe, the researchers and academicians. Prominently Materials Scientists/Research Professors/ Nanotechnologists, Physicists/Chemists, Junior/Senior research fellows of Materials Science/ Nanotechnology, Materials Science Students, Directors of chemical companies, Materials Engineers, Members of different materials science and Crystallography and Spectroscopy associations.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 18 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British Society for Immunology. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Crystallography
- Chemical Crystallography
- Advanced Crystallography
- Crystallography of Novel Materials
- X-Ray Crystallography
- Crystal Growth
- Nuclear Magnetic Resonance Crystallography (NMR crystallography)
- Spectroscopy
- Advances in Neutron Diffraction
- Biological Structure Determination
- Crystallography in Biology
- NMR Spectroscopy vs. X-Ray Crystallography
- Crystal Engineering
- Crystallography Applications
- Spectroscopy Applications
- Application of Modern Chemistry

EuroSciCon

About Destination London

London is a leading global city. It is the world's largest financial centre alongside New York, and is home to the headquarters of more than 100 of Europe's 500 largest companies. It has the most international visitors of any city in the world. London is considered to be one of the world's most important global cities and has been termed the world's most powerful, most desirable, most influential, most visited, most expensive, innovative, sustainable, most investment friendly, most popular for work, and the most vegetarian-friendly city in the world. London exerts a considerable impact upon the arts, commerce, education, entertainment, fashion, finance, healthcare, media, professional services, research and development, tourism and transportation. London ranks 26 out of 300 major cities for economic performance. It is one of the largest financial centres and has either the fifth or sixth largest metropolitan area GDP. It is the most-visited city as measured by international arrivals and has the busiest city airport system as measured by passenger traffic. It is the leading investment destination, hosting more international retailers and ultra-high-net-worth individuals than any other city. London's universities form the largest concentration of higher education institutes in Europe. In 2012, London became the first city to have hosted three modern Summer Olympic Games.

London contains four World Heritage Sites: The Tower of London, Kew Gardens, the site comprising the Palace of Westminster, Westminster Abbey, and St Margaret's Church, and the historic settlement in Greenwich where the Royal Observatory, Greenwich defines the Prime Meridian, 0° longitude, and Greenwich Mean Time. Other landmarks include Buckingham Palace, the London Eye, Piccadilly Circus, St Paul's Cathedral, Tower Bridge, Trafalgar Square and The Shard. London has numerous museums, galleries, libraries and sporting events. These include the British Museum, National Gallery, Natural History Museum, Tate Modern, British Library and West End theatres. The London Underground is the oldest underground railway network in the world.
