International Conference on

Crystallography & Novel Materials

September 21-22, 2020 | Brussels, Belgium

Theme: The Future Generation on Crystallography & Novel Materials

International Conference on Crystallography & Novel Materials(Crystallography 2020) all the global leaders in energy department to share their research at this exclusive scientific program held in Brussels, Belgium during September 21-22, 2020 which based on the theme *The Future Generation on Crystallography & Novel Materials*

Scientific Sessions:

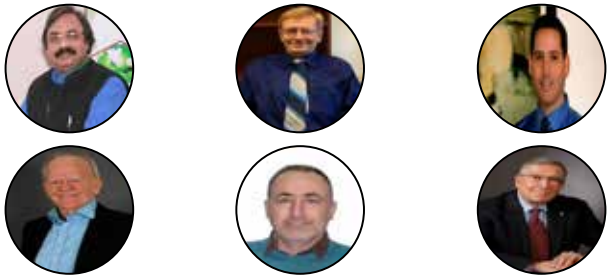

- Mineralogy and Geology
- Crystallographic Computing
- Atomic Physics
- Material Chemistry
- Complex Metallic Alloys
- Crystallography
- Role in Crystallography
- Quantum Materials
- Nuclear Magnetic Resonance Crystallography
- Biomineralogy and Bioinspired Materials

Benefits of attending Crystallography 2020

- Getting recognition some of the most reputed names in the scientific community.
- Hearing about the latest research from the conference topic.
- An opportunity to share your views and interact with researchers from around the world.
- A chance for budding scientists to meet their academic heroes.
- Engaging in high-level debates to refine your ideas.

Organizing Committee Members @ Crystallography 2020

Eminent Speakers @ Crystallography 2020

Supporting Journals

- Journal of Chemistry and Applied Chemical Engineering
- Journal of Biochemical Engineering & Bioprocess Technology
- Journal of Diagnostic Techniques and Biomedical Analysis

Supporting Partners

Tourist Attractions

- Grand Place
- Atomium
- Manneken Pis
- Mini-Europe
- Parc du Cinquantenaire
- Royal Gallery of Saint Hubert

Brussels, Belgium
