Invitation

Meetings International proudly announces the ***International Conference On***

Information Systems Security and Privacy scheduled during November 05-06, 2018 in Las Vegas, USA. The conference emphasizes the theme "***Identifying and Combating Cyber Attacks***".

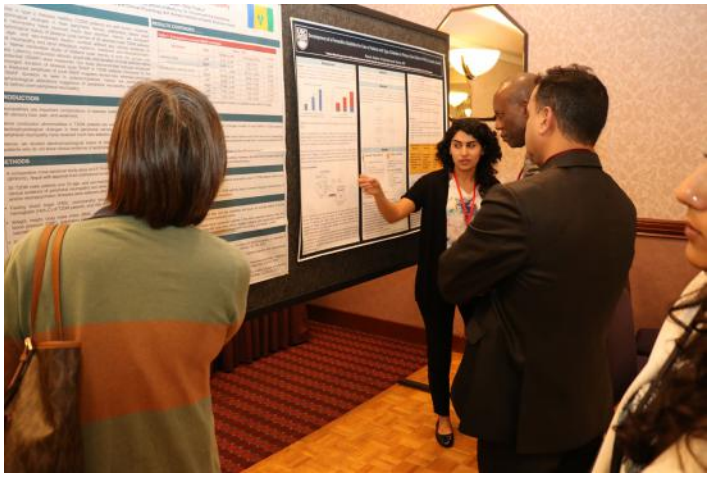

Meetings International provides an international dais for scientists and recycling professionals to Exchange Ideas, Knowledge and Networking at its **100+ International Conferences**. The importance of recycling has come into spotlight in the recent years. Thus, priorities are given for the recycling centers to produce waste disposal that can save material and help lower greenhouse gas emissions (compared to plastic production,for example). The cyber security conference focuses on freedom of information on one hand and securing the essential digital privileges of an individual/ organization – confidentiality, integrity and availability of data on the other hand.

Sincerely,
Operating Committee

Explore Las Vegas

Las Vegas is the 28th-most populated city in the United States, the most populated city in the state of Nevada, and the county seat of Clark County. The city anchors the Las Vegas Valley metropolitan area and is the largest city within the greater Mojave Desert. Las Vegas is an internationally renowned major resort city, known primarily for its gambling, shopping, fine dining, entertainment, and nightlife. The Las Vegas Valley as a whole serves as the leading financial, commercial, and cultural center for Nevada. The major attractions in Las Vegas are the casinos and the hotels, although in recent years other new attractions have begun to emerge. Most casinos in the downtown area are located on Fremont Street, with The Stratosphere being one of the exceptions. Fremont East, adjacent to the Fremont Street Experience, was granted variances to allow bars to be closer together, similar to the Gaslamp Quarter of San Diego, the goal being to attract a different demographic than the Strip attracts.
