

EuroSciCon

International Conference on

Advances in Machine Learning and Data Science

December 09-10, 2019

Baltimore, USA

Theme:

Modern Technologies and Challenges in Machine Learning and Data Science

EuroSciCon

Data Science

2019

Invitation

Data Science 2019 is glad and proud to welcome to attend the International Conference on Advances in Machine Learning and Data Science during December 9-10, 2019, Baltimore, USA with a theme “Modern Technologies and Challenges in Machine Learning and Data Science”. Baltimore the largest city in the state of Maryland within the United State. EuroSciCon through its Open Access Initiative is committed to make genuine and reliable contributions to the scientific community. Automotive 2019 aims with total 28 tracks to discover advances in Machine Learning, Big Data, Data Mining, Artificial Intelligence, Business Intelligence in relation to Machine Learning, Data Analytics and AI Companies as well as a breadth of other topics. Data Science 2019 aim is to bring leading Data Scientists, Data Analysts, Young inspired researchers, Associate Professors and Scholars together to share their experiences and research results and it’s development in Machine Learning and Data Science.

Data Science 2019 also gives first in importance to provide interdisciplinary forum for Directors, Researchers, Scientists, Academicians and Educators to present, share the knowledge and discuss the most recent innovations, trends, and concerns, challenges encountered and the solutions adopted in the fields of Machine Learning, Big Data and Data Mining.

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action.
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

December 09-10, 2019

Baltimore, USA

EuroSciCon

Data Science

2019

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences are happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business.

Moreover you get to meet the industry's high priests who come from all over the world. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

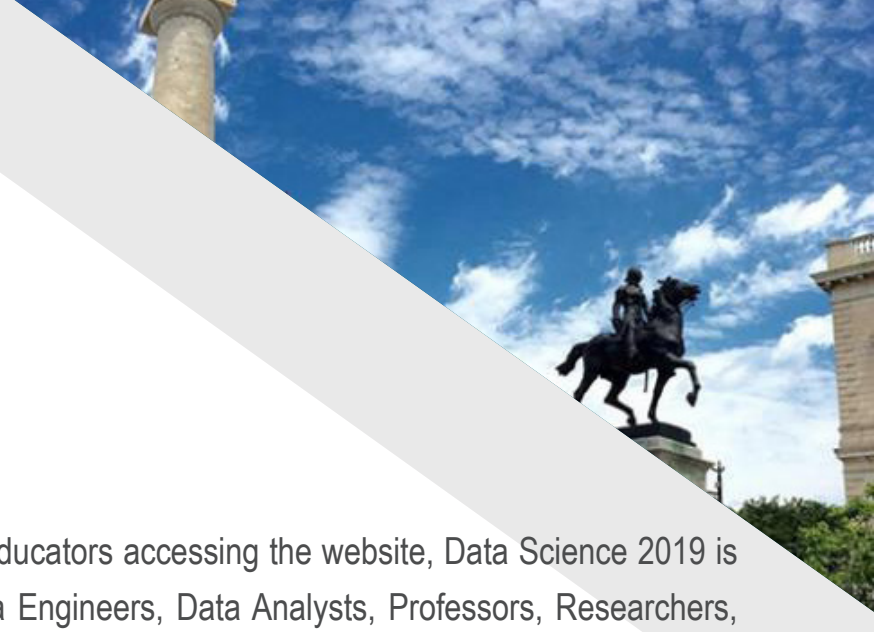

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ Practitioners and Educators accessing the website, Data Science 2019 is the most lucrative platform for Data Engineers, Data Analysts, Professors, Researchers, Academicians and Industry professionals pursuing their work in the field. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Data Science 2019 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives
Nurture connexions
Agenda format which incorporates ample Q&A time
Partake in our revamped exhibitor expo sessions
Meet and listen to the relevant clients
Unprecedented growth creating an unparalleled market place

December 09-10, 2019
Baltimore, USA

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience
It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
World's leading industries and companies attend
Career guidance for early career researchers and students
Provides insights you need to take your research to the next level
A huge conclave of high tech and science priests

EuroSciCon

Data Science

2019

Who'd be attending?

Leading World Data Analysts, Data Professionals, Professors, Research fellows, Leading Universities, Students, Directors of association and societies. Data Science 2019 conference brings together individuals who have an interest in different fields of Machine Learning, Deep Learning, Big Data , Data Mining, Artificial Intelligence, Business Intelligence, Cloud Computing and Analytics and other related fields. It is a forum to explore issues of mutual concern as well as exchange knowledge, share evidence, ideas, and generate solutions.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British Society for Immunology. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Machine Learning Technology
- Machine Learning Models and Techniques
- Pattern Recognition and Machine Learning
- Deep Learning
- Machine Learning in Big Data and Data Mining
- Machine and Deep Learning Applications
- Data Science
- Information and Database System
- Big Data and Data Mining Applications in Science, Engineering, Healthcare, Medicine and Nursing Research
- Big Data Technologies
- Forecasting from Big Data
- Big Data Search and Mining
- Data Mining Foundations
- Data Mining Methods and Algorithms
- Data Privacy and Ethics
- Data Warehousing
- Artificial Intelligence and Technology
- Business intelligence and Analytics
- Knowledge Processing
- Cloud Computing
- Internet of Things (IOT)

2019

About Destination Baltimore

Baltimore is the largest city in the state of Maryland within the United States. Baltimore was established by the Constitution of Maryland as an independent city in 1729. With a population of 602,495 in 2018, Baltimore is the largest such independent city in the United States. As of 2017, the population of the Baltimore metropolitan area was estimated to be just under 2.802 million, making it the 21th largest metropolitan area in the country. Baltimore is located about 40 miles (60 km) northeast of Washington, D.C., making it a principal city in the Washington-Baltimore combined statistical area (CSA), the fourth-largest CSA in the nation, with a calculated 2018 population of 9,797,063.

Baltimore is also the second-largest seaport in the Mid-Atlantic. The city's Inner Harbor was once the second leading port of entry for immigrants to the United States. In addition, Baltimore was a major manufacturing center. After a decline in major manufacturing, heavy industry, and restructuring of the rail industry, Baltimore has shifted to a service-oriented economy.
