Explore Singapore

Singapore is the only island city state of the world. It is in the Indian Ocean off the southern tip of the Malay Peninsula. It is the most modern city in Southeast Asia. This city is a global finance, commerce as well as transportation hub. It has always been ranked highly in the fields of life expectancy, personal safety, healthcare, education etc. Within less than three decades, the nation has transformed itself into a science and technology research hub that is punching above its weight.
