Dear Colleagues

Meetings International proudly announces the **2nd International Conference on Dementia and Dementia Care** scheduled during **April 15-16, 2019 in Toronto, Canada.** The conference emphasizes the theme "**Breakthrough in Dementia Research and Care**". Meetings International provides an international dais for scientists and Neuroscience professionals to

Exchange Ideas, Knowledge and Networking at its 100+ International Conferences. The importance of Neurology has come into spotlight in the recent years. Several individuals usually at the old ages are suffering from neurological disorders like dementia and there is no cure or treatment so far discovered to slow down the disease progression. Thus, importance should be given on dementia research and care.

Conference Highlights :

- Dementia
- Dementia Care & Awareness
- Alzheimer's disease
- Neurodegenerative diseases
- Biomarkers for Dementia
- Diagnostic Tools & Tests for Dementia
- Treatment Strategies & Drug Discovery
- Therapeutic Approach towards Dementia
- Clinical Trials & Study in Dementia

About Toronto

Toronto is the capital city of the province of Ontario in Canada. It is the largest population centre in Ontario by population over 5 million. It is situated on the north-west shore of Lake Ontario. There are more people reside in the regions around it. Toronto's motto is "Diversity Our Strength. This city is a global finance, commerce as well as transportation hub. It has always been ranked highly in the fields of life expectancy, personal safety, healthcare, education etc. The proportion of Canadians living with Alzheimer disease and related dementias is projected to rise, with an increased burden on the primary health care system in particular. Using rates drawn from the Canadian Study on Health and Aging, it was estimated that in 2016 there were564,000 persons in Canada living with dementia. By 2031 it is estimated that the number will increase to 937,000. More than 65 percent of these will be women.
