Explore Montereal

Montereal is the most populous municipality in the Canadian province of Quebec and the second-most populous municipality in Canada. Originally called Ville-Marie, or “City of Mary”, it is named after Mount Royal, the triple-peaked hill in the heart of the city. The city is centred on the Island of Montreal, which took its name from the same source as the city. It has a distinct four-season continental climate with warm to hot summers and cold, snowy winters. Historically the commercial capital of Canada, Montreal was surpassed in population and in economic strength by Toronto in the 1970s.
