Invitation

Dear Attendees,

Meetings International proudly announces the ***14th World Dental Health Congress*** scheduled during ***June 20-21, 2022 | Toronto, Canada***

The conference emphasizes the theme Inventive ideas and advanced techniques in Dental Health and Education".

In Dental Health 2022 we take a closer look at some amazing trends that are set to change the dental care field for good. This dental conference provides a platform for all the healthcare professionals, researchers, clinicians, scholars, and businessmen to come together and share their ideas. It provides a great opportunity for establishing strong relations between the dental organizations, the general public, and government so that they can work together to achieve healthier mouths and happier lives.

Sincerely,

Operating Committee

- Pediatric Dentistry
- Robotics and Nanodentistry
- Dental Instruments and Devices

- To identify the future directions of research
- Peer review and high quality publication
- Quality research

Toronto Attractions

Explore Toronto

Toronto, the capital of the province of Ontario, is a major Canadian city along Lake Ontario's northwestern shore. It's a dynamic metropolis with a core of soaring skyscrapers, all dwarfed by the iconic, free-standing CN Tower. Toronto also has many green spaces, from the orderly oval of Queen's Park to 400-acre High Park and its trails, sports facilities and zoo. Toronto is located on the shore plain beside its harbour. There is a fairly abrupt rise 4 km inland which marks the shoreline of Lake Iroquois, a lake formed by glaciers 12,500 years ago that had a much higher water level than Lake Ontario.

French fur traders had known about the Toronto Passage since the early 1600s, and in 1720 they built a small store on the Humber River. This post failed financially and was abandoned in 1730. In 1750 the French built another small trading post. Fort Rouillé (or Fort Toronto), located in Toronto's present-day Exhibition Grounds, was burned in 1759 by its French garrison during a retreat from British forces.

Toronto's economy has gone through the stages of commercial lake port, railway and industrial hub, financial nexus, and high-level service and information centre. At present its port and commercial functions remain important, though relatively less so, apart from heavy retail activity. Its railway role persists, but has been modified by air and automotive transport.

Toronto is the capital city of the province of Ontario in Canada. Toronto is the largest population centre in Ontario by population over 5 million. It is situated on the north-west shore of Lake Ontario. There are more people reside in the regions around it. Toronto Area is the great metropolitan area in Canada. Toronto also has
een spaces, the oval of Queen's Park is 400-acre High Park with consist
sports facilities and zoo.

Venue
Toronto, Canada
