Theme

Evolution of New Horizon on the Unspoken Smiles

Welcome Message

Meetings International proudly announces the International Conference on Dentistry and Integrated Medicine, held during May:7-8, 2018 Tokyo, Japan. The conference emphasizes the theme "Evolution of New Horizon on the Unspoken Smiles"

Meetings International provides an international dais for therapeutic and medical care Professionals to Exchange Ideas, Knowledge and Networking at its 100+ International Conferences.

Worldwide Infectious Diseases are disorders caused by organisms such as bacteria, viruses, fungi or parasites. Infectious diseases may be of water borne, food borne, vector borne, air borne in human beings as well as in plants and animals. Infectious diseases basically emphasize on the pathogenesis of the bacteria and their therapeutic measures, coalesce of branches of microbiology especially clinical and diagnostic microbiology which deals with the cure and prevention of the Infectious diseases. It represents an increasingly important cause of human morbidity and mortality throughout the world. Vaccine development is thus of great importance in terms of global health.

The knowledge and experience will be shared by attendees from academia, universities, clinical practice, industry and government, making this the largest, most comprehensive group of scientists at a single gathering with participation from across the globe.

Infectious Diseases Meeting-2018 will bring together key decision makers and innovators within this rapidly growing field. This intensive 2-Day program will focus on various fields of diabetes and nutrition.

Meetings International - Infectious Diseases Meeting-2018 will offer you an unmatched attendee experience. In addition to the many scientific sessions and take-home case study examples, you will leave this event with many other novel development strategies.

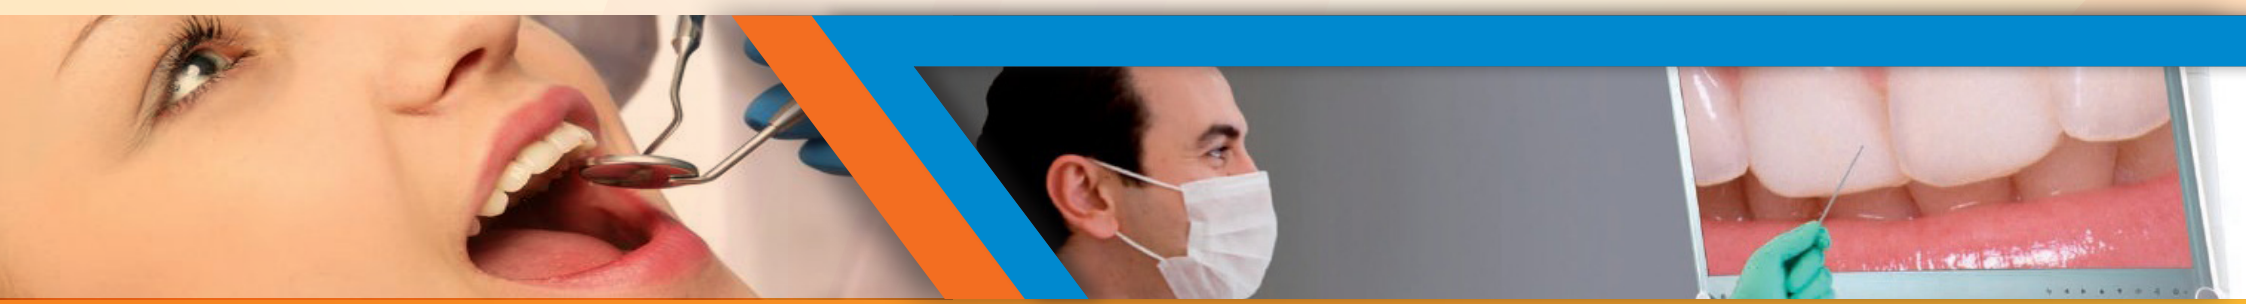

We are excited about this meeting as well as the opportunities for scientific and social interactions with colleagues from the region and around the world. Join us in 2018, for an enlightening, informative and enriching experience. We look forward to welcoming you in Japan!

Sincerely,

Operating Committee

CEO and Founder

Meetings International PTE LTD.

Welcome Message

Dear Friends /Colleagues,

It is my great pleasure to welcome you to the International Conference on "Dentistry and Integrated Medicine", Tokyo, Japan May 7-8, 2018.

Separating dentistry from medicine is the same meaning of separating the oral area from the whole body. Since every part of human body has related each other, this fact is a serious mistake. If the fundamental cause of sickness is in dental area, it is difficult to cure it by means of medical treatments. Please remember that there may be an alternative as dentistry when medical treatment doesn't show enough effectiveness or having a doubt in standard medical treatment.

"Dentistry and Integrated medicine" is aimed to unify a dentistry and medicine. Not only conventional aspects of dentistry which experimental subject's limits in an oral area but also dentistry considering the whole-body health conditions are welcomed. They provide a platform that brings together worldwideresearchers, innovators and students along with basic and clinical professionals focusing on aspects of the relationship between dentistry and integrated medicine. The medical doctors, nurses and acupuncturists etc. who take interests in integrated medicine as well the people engaged in dentistry are recruited widely. I am delighted to encourage everyone to come, ask questions, make discussions and make new collaborations.

Participants to the event, besides updating and discuss new trends in "Dentistry and the Integrated medicine", have a unique opportunity to generate international research networks.

I want this conference to become the opportunity by which the serious mistakes that dentistry was separated from the medical department is corrected.

I cordially invite you to participate in this honourable event.

Have safe travels and see you in Tokyo.

With all good wishes,

Dr. Yoshiro Fujii DDS. Ph.D.

Shin-Kobe Dental clinic, Japan

- Your product/services gets good recognition and remuneration in the world

Sponsorship Packages

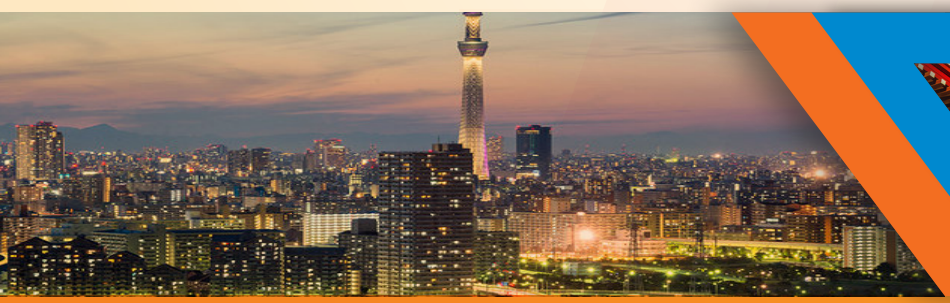

- Diamond Sponsor
- Gold Sponsor
- Silver Sponsor
- Bronze Sponsor
- Exhibition

For any other and customized packages, write to Program Manager.

About Tokyo

Tokyo, the capital city of the parliamentary democratic monarchy of Japan, is also home to the Emperor's Palace and the seat of Government and Parliament. In East-Central Honshu, the largest of Japan's main islands, this heavily populated city is well worth exploring. The cultural side of Tokyo is famous for its numerous museums; theaters; festivals; internationally noted cuisine; and professional sports clubs, including baseball, football (or soccer), along with traditional Japanese pursuits like Sumo Wrestling. It's also a city rich in music and theater, with numerous venues featuring everything from Japanese to modern dramas, symphony orchestras, and pop and rock concerts.

The chief attraction of Tokyo's Marunouchi district is the Imperial Palace with its beautiful 17th-century parks surrounded by walls and moats. Ginza is Tokyo's busiest shopping area and is as iconic as Times Square in New York, and much older: it's been the commercial center of the country for centuries, and is where five ancient roads connecting Japan's major cities all met. Dedicated to Kannon, the Buddhist goddess of compassion, Sensō-ji Temple was established in AD 645 and retains its original appearance despite having been rebuilt numerous times. National Museum of Nature and Science (Kokuritsu Kagaku Hakubutsukan) opened in 1871 and is one of the country's oldest museums. The museum houses a vast collection of materials related to natural history and science, including many fascinating interactive displays on space development, nuclear energy, and transportation. Ueno Park is the city's largest green space and one of its most popular tourist attractions.
