Quality research

To identify the future directions of research

Peer review and high quality publication

Explore Singapore

Singapore ranks 5th on UN Human Development Index with 3rd highest GDP per capita globally. Tourism forms a massive part of the economy with over 17 million visitors visiting the city in 2017. It is a worldwide core for finance, business, arts, culture and it is recognized as one of the most multicultural cities in the world. Joining the elevated structures and metros of a progressed, prosperous city with a blend of Chinese, Malay and Indian effects nearby a tropical air, scrumptious sustenance from merchant centres, copious malls, and enthusiastic night-life scene, this Garden City makes an uncommon stopover or springboard into the territory. The country has also been identified as a tax haven. There are four official languages: English (common and first language), Malay, Mandarin and Tamil, though almost all Singaporeans are bilingual.
