Title: Dental Restorations according to Rayo 3DToothFill
Dr.Pirkko-Liisa Tarvonen,University of Eastern Finland and Md at Rayo 3DToothfill,Europe

ABSTRACT-Accuracy of the technology makes it suitable for manufacturing of several dental applications, like surgical guides, aligners and dental implant.
BIOGRAPHY-Pirkko-Liisa Tarvonen has a specialist degree in Dental Public Health from the University of Turku, Finland,. She acts as Dental Marketing Director at Rayo 3D-Toothfill Ltd and as University Lecturer at the University of Helsinki and at the University of Eastern Finland.

Title: Cellular Regeneration with Electronic Stem Generator. A New Perspective for Treating Peridontal Disease
Dr.Bata Cosmin,Implantologist,Romania

ABSTRACT-.The advantage of this technology is that it does not hurt (no pain), removes surgical trauma (no surgery), it is done at home (using a device that generates an electromagnetic field with a short frequency and a long wavelength) and the costs are much lower compared to any other surgery done to stop parodonto.
BIOGRAPHY: Bata Cosmin, specialist in implantology and periodontics, he runs his work in parallel, both in Munich, as a specialist in implantology and in Sibiu, where he continues to work. Since 2010, he has set up an Institute of Dentistry in Sibiu**.**

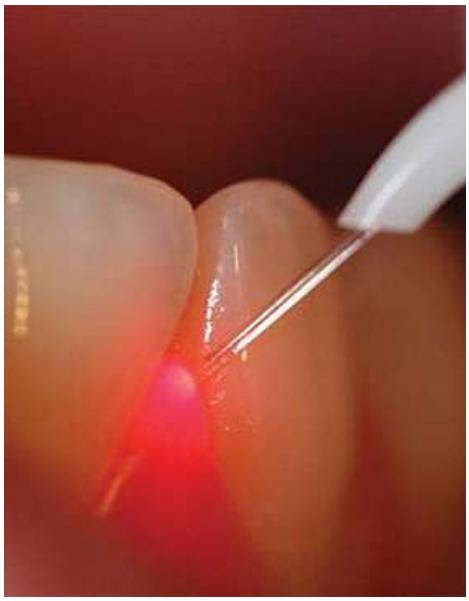

Title: Dynamic jaw' s motion. A new approach for prosthetic rehabilitations
Dr.Nicolo Barbera,University of Milano,Italy

ABSTRACT-Aim of the research program is to asses THE RELIABILITY OF THE DYNAMIC ACQUISITION SYSTEM OF MANDIBULAR MOVEMENTS on a patient subject to aesthetic prosthetic rehabilitation.
BIOGRAPHY- Nicolo Barbera is an active member of the Italian federation of Posture, ECM Accr teacher for Digital Dentistry & Posturology Courses in Milan. He has an experience of 6 years

Title: Networking: The future of Digital Dentistry application
Dr.Luca Barbera, Private prcatise of dental surgery,Italy

ABSTRACT-his work confirms the versatility of Networks in digital systematics, operational effectiveness, together with the possibility to use them even if there is not a very wide "machinery fleet" available by clinicians of basic experience level.
BIOGRAPHY-Dr L BARBERA is Consultant for different Companies for Digital technology and Implant Dentistry Since Degree he practiced exclusively Oral Surgery. Graduated 2lev Master in Digital Dentistry University ov Varese 2018.

Title: Evaluation between mandibular position and stabilometric parameters (LFS; VarVit) modification.
Dr.Michele Barbera, Odontologists,Italy

ABSTRACT-The modification of the mandibular position through the standardized device seems to change in a reproducible and standardized manner some stabilometric parameters such as LFS and VarVit, in light of having isolated the mouth influx, performing the tests with eyes closed to exclude the eye receptor and without noiseless distractions.
BIOGRAPHY- Dr BARBERA MICHELE ,Graduated in Medicine Univ of Milan 1990 is an Odontologist and an active member of the Italian federation of Posture, ECM Accr teacher for Posturology and Mouth and Posture Courses in Milan.
