Explore Paris

Paris has one of the richest histories of any city that is still considered an important hub for international commerce. The city has not always been the tourist attraction that it is today. It was in the 1850s when the city began its transformation into the city that it is today. One of the main reasons why the city went through this transformation was because the windy medieval streets made the city a dirty, dark and unsanitary place. Paris, France's capital is a major European city and a global centre for art, fashion, gastronomy and culture. Its 19th-century cityscape is crisscrossed by wide boulevards and the River Seine. Beyond such landmarks as the Eiffel Tower and the 12th-century, Gothic Notre-Dame cathedral, the city is known for its cafe culture and designer boutiques along the Rue du Faubourg Saint-Honoré.
