Dermatology 2023

2023

Invitation

Welcome to Budapest, the City of Arts and Science, and experience the science of Dermatology illuminated as never. EuroSciCon is proud to host the **23rd International Conference on on Dermatology and Melanoma, April 23-24, 2023 in Budapest, Hungary.** This year's theme is In depth discussions on advanced clinical and experimental Dermatology research. Dermatology 2023 will provide an unprecedented opportunity for Dermatologists of all stripes and colors to share their research with colleagues, and discuss and debate the latest advances in the ield. We invite oncologists and scientists in related disciplines to come together and inform each other in an environment conducive to education and interaction. Seasoned scientists, young researchers, mid-career professionals and just starting out are all welcome.

With a broad array of keynote presentations, panel discussions, workshops, and poster sessions, the Dermatology Conference is the perfect venue not only to dive into your Dermatological interests but also to expand the scope of your knowledge. The Organizing Committee has done its best to set up a framework that we think will allow for a creative interplay of ideas. All we need now to convert the extensive program on paper to an active and vibrant Dermatological forum in person is your active participation.

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action.
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ Dermatologist accessing the website, Dermatology 2023 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fueling better outreach of the work and profile.

Dermatology 2023 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives
Nurture connexions
Agenda format which incorporates ample Q&A time
Partake in our revamped exhibitor expo sessions
Meet and listen to the relevant clients
Unprecedented growth creating an unparalleled market place

April 23-24, 2023

2023

Who'd be attending?

23rd International Conference on Dermatology and Melanoma plays host for the Multinational organizations, entrepreneurs across the globe, the researchers and academicians. Prominently Dermatology Consultants, Investigative Dermatologists Regulatory Professionals, Laboratory Directors, Dermatologists and others who stay plunged in learning and practice of the science of Dermatology and Melanoma.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British Society for Immunology. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Research In Dermatology
- Skin Cancer
- Dermatology
- Melanoma
- Cosmeceuticals- Drugs And Therapies
- Clinical And Medical Dermatology
- Cosmetology
- Cosmetic And Aesthetic Surgery
- Laser Treatments
- Surgical Dermatology And Dermatopathology
- Allergy And Immunology
- Psoriasis And Psoriatic Arthritis
- Paediatrics Dermatology
- Types Of Skin Diseases
- Venereology
- Reconstructive And Plastic Surgery
- Trichology And Hair Transplant
- Noncancerous, Precancerous And Cancerous Tumors
- Skin Disease Diagnosis And Treatment
- Skin Cancer Diagnosis And Treatment
- Dermatology Screening, Diagnosis And Prevention
- Medical Treatments- Emerging & Future Therapies

About Destination Hungary

Hungary is a landlocked country in Central Europe. Its capital, Budapest, is bisected by the Danube River. Its cityscape is studded with architectural landmarks from Buda's medieval Castle Hill and grand neoclassical buildings along Pest's Andrássy Avenue to the 19th-century Chain Bridge. Turkish and Roman influence on Hungarian culture includes the popularity of mineral spas, including at thermal Lake Hévíz.

The territory of present-day Hungary has for centuries been a crossroads for various peoples, including Celts, Romans, Germanic tribes, Huns, West Slavs and the Avars. The foundation of the Hungarian state was established in the late 9th century AD with the conquest of the Carpathian Basin by Hungarian grand prince Árpád. His great-grandson Stephen I ascended the throne in 1000, converting his realm to a Christian kingdom. By the 12th century, Hungary became a regional power, reaching its cultural and political height in the 15th century.

Following the Battle of Mohács in 1526, it was partially occupied by the Ottoman Empire (1541–1699). Hungary came under Habsburg rule at the turn of the 18th century, later joining with the Austrian Empire to form Austria-Hungary, a major power into the early 20th century.
