Title: Prevalence of Diabetic Foot Lesions In Patients With Diabetes Mellitus Under Chronic Hemodialysis In El Gharbia Government Hospitals.

Yasser Mostafa Hafez, Internal Medicine Department, Tanta University, El-Gharbia, Egypt

Abstract: The aim of this study was to estimate the prevalence of diabetic foot lesions in patients with diabetes mellitus under chronic hemodialysis in El Gharbia government hospitals

Biography: Yasser Mostafa Hafez is a a lecturer of Internal Medicine and has been serving as an editorial board member of repute.

Title: The emerging role of the epigenetic enzyme Sirtuin-1 and high mobility group Box 1 in patients with diabetic foot ulceration.

Yasser Mostafa Hafez, Internal Medicine Department, Tanta University, El-Gharbia, Egypt

Abstract: The aim of this study to discuss the role of SIRT1 as an epigenetic biomarker in DFU and highlight its link to oxidative stress and inflammatory cytokines.

Biography: Yasser Mostafa Hafez is a a lecturer of Internal Medicine and has been serving as an editorial board member of repute.

Title: Glucose Toxicity: The Worldwide Problem and the All-Natural Solution

John F. Burd, PhD., Lysulin, Inc., San Diego, CA

Abstract: Combining important supplements into one tablet makes a powerful weapon to combat glucose toxicity and protein glycation.

Biography: Dr.Burd is Founder & CEO of Lysulin, Inc, developing scientifically proven nutraceutical products to improve the health of people with diabetes.

Title: Electronic water can reduce oxidative stress in cancer and diabetes patients for 3 weeks drinking.

Masahiro Onuma, President of Trisguide ltd, Japan

Abstract: Electronic water, which was developed to generate electron in water, was consumed for three weeks, between and after meals reduce oxidative stress.

Biography: Masahiro Onuma , president of Trisguide ltd, japan, has expertise in oxidative disease prevention to use non-medical product based on GSK's experience of Allopurinol which is the strongest anti-oxidant efficacy in this world.

Title: Therapeutic ketosis and the broad field of applications for the ketogenic diet: Ketone ester applications & clinical updates.

Raffaele Pilla, Pharm D, PhD – St. John of God Hospital – Fatebenefratelli, Benevento, Italy

Abstract: In this work, the author reports a number of successful case reports treated through metabolic ketosis.

Biography: Raffaele Pila is a Pharmacist at Fatebenefratelli Pharmacy, Benevento, Italy. He is also a Researcher at University of Salerno, Italy and a Clinical Consultant at the service of Oncology at Fatebenefratelli Hospital, Benevento, Italy

Title: Metabolic function of the Wnt signaling pathway

Tianru Jin, Dept. of Medicine and Dept. of Physiology, Banting and Best Diabetes Centre, University of Toronto, Canada.

Abstract: This paper summarize recent studies in the liver, pancreatic islets and adipose tissues and also present the perspectives on how this line of research will add to the knowledge on pathophysiology of diabetes and other metabolic disorders.

Biography: Tianru jin, PhD; Professor, Principal Investigator, Senior Scientist, Dept. Of Medicine, Dept. of Physiology, University of Toronto, Canada. His lab research interest is Mechanisms underlying the production and function of GLP-1, Gene expression and cell Signalling, Insulin resistance and dietary polyphenol intervention.

Title: Diabetes Cure for Type1, Type 2 and Type 3 (LADA)

Vivek Kamath, Mexican Healing Master, Melchizedek Healer, Crystal Healer and Past Life Regression Therapy Expert, India

Abstract: This study based on the diabetic treatment with the reiki healing techniques.

Biography: Heal The World Founder Mr. Vivek Kamath is an Indian Software Engineer by Profession. He has worked as a freelancer for nearly 20 years with the large International banks. Vivek Kamath is also an Author, Astro Numerologist, Palmist, Reiki Healing Master Cum Practitioner, Mexican Healing, Crystal Healing, Past Life Regression Therapy, Melchizedek Method of healing from the last 7 years.

Title: Immediate Healing For Personality Development.

Dr. Hadi Eltonsi Cairo University Medical Collage.MB.BCH, Austria Area.

Abstract: Immediate non medicinal revolutionary life transforming healing for a wide spectrum of cases achieving higher grades of maturity, insight, harmony and efficiency saving client time, effort, interests and complications.

Biography: Dr. Hadi Eltonsi a medical graduate trained in group psychotherapy , hypnosis, silva mind control, NLP, Reiki Master, Pranic Healing, Life Couch, Mantra Yuga meditation among others courses for psychic powers, family constellation thru his medical study and practice then as a diplomat and Ambassador

Title: An exploration of the effects of diabetes on burnout among the Walter Sisulu University employees, EC, SA.

Mr. Cawe Novukela, Walter Sisulu University , South Africa.

Abstract: This study investigated the effects of diabetes mellitus on burnout among WSU employees as well as the prevalence of diabetes mellitus and burnout.

Biography: Cawe Novukela is currently busy with his Ph.D at Walter Sisulu University and is the Dean of the Faculty of Business Sciences.

Title: Serum CA19-9 Level Associated with metabolic control in diabetic Patients
Radia BOUFERMES, BADJI Mokhtar University – Science faculty- Biochemistry department. Annaba - Algeria

Abstract: This study shows that the elevated serum CA19-9 level in diabetic patients may indicate further investigations of glycemic control, pancreatic beta cell function in diabetic patients
Biography: She is a Assistant Master in the BADJI Mokhtar University , Science faculty- Biochemistry department. Annaba, Algeria.

Title: Design & synthesis of succinamic acid derivative and its evaluation for anti-diabetic potential in experimental animals
Nikhil Khurana, Deptt. of Chemistry, ARSD College, University of Delhi, India.

Abstract: The work was undertaken to study the effect of α-HSA on fasting blood glucose levels, HbA1c levels, serum insulin levels, oxidative stress parameters and serum lipid profile.
Biography: He is Researcher in Department of Biochemistry, University College of Medical Sciences (University of Delhi), Dilshad Garden, Delhi, India

Title: Aqueous extract of Argania spinosa L. fruits improves diabetes in streptozotocin-induced diabetic rats
Mohamed Eddouk,Faculty of Sciences and Techniques Errachidia, Moulay Ismail University, Errachidia. Morocco

Abstract: The purpose of this study was to investigate the effect of a single dose and daily oral administration for seven days of aqueous extract of pulp of A. spinosa fruit (A.E.P.F.A.S) in normal and streptozotocin (STZ)-induced diabetic rats on blood glucose levels and plasma lipid profile.
Biography: Prof. Mohamed Eddouks is a Dean, Polydisciplinary Faculty of Errachidia in a Moulay Ismail University, Morocco. He is also a Professor of Physiology/Pharmacology.

Title: Evaluation of glucose and lipid lowering activity of Arganimide A in normal and streptozotocin-induced diabetic rats .

Mohamed Eddouk,Faculty of Sciences and Techniques Errachidia, Moulay Ismail University, Errachidia. Morocco

Abstract: The purpose of this study was to investigate the glucose and lipid lowering activity of Arganimide A (ARGA).

Biography: Prof. Mohamed Eddouks is a Dean, Polydisciplinary Faculty of Errachidia in a Moulay Ismail University, Morocco. He is also a Professor of Physiology/Pharmacology.

Title: The link between GnT-4a enzyme production and diabete.

Sugiti Routh, PharmD, RPh, Greater Philadelphia Area

Abstract: The purpose of this research is to examine the GnT-4a enzyme and understand the relation between the enzyme and diabetes.

Biography: She is a pharmacy Intern in Rite Aid Pharmacy, Greater Philadelphia Area.

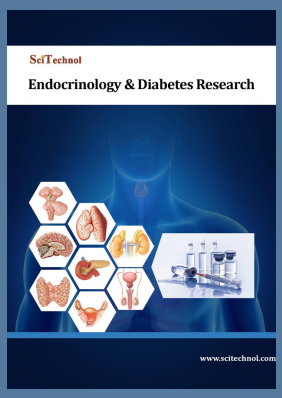

Title: Sports and Diabetes Management !

Hera Eid, Certified Trainer in human development / Diabetes Motivational Speaker,Lebano.

Abstract: Being a patient with type 1 diabetes for almost 8 years now, her message and passion and life is all about diabetes, Purpose of this study is to expand the diabetes community, motivating, inspiring, spreading awareness and building up the diabetes community.

Biography: She is a certified trainer with over 2 years experience in training and coaching field (personal-development, creative thinking, leadership, time management, anger management and many other topics depending on the need of the institution or the person.) Always looking forward and aiming to building up and developing the community, motivating and inspiring.
