- Diabetic Retinopathy
- Diabetes and Treatment
- Neurologic Problems and Diabetes
- Hypertension and Diabetes
- Endocrine Complications of Diabetes
- Diabetes and Cardiovascular Diseases
- Pediatric diabetes
- Recent Advances in Nanotechnology for Diabetes

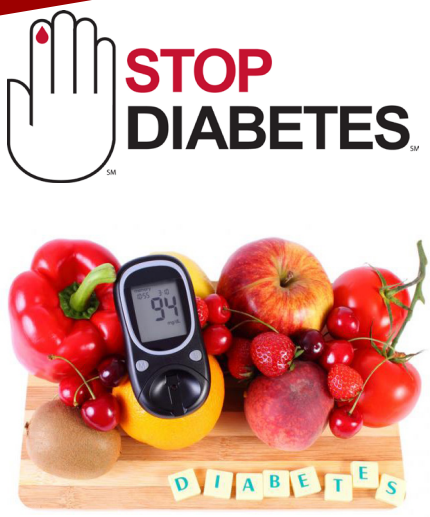

Meetings Int. offers

An unique platform for top level research and innovation

WE VALUE

To identify the future directions of research

Peer review and high quality publication

Quality research

Number of Attendees

200 +

- Societies, Universities & Hospitals
- Companies & Medical Farms

Number of Speakers and Presentations

32 +

Number of Sponsors and Exhibitors

10 +

Attendee Profile

- Director & Professors
- Senior Scientist
- Commercial/Business Dev

Explore Dubai

The Emirate of Dubai is the second largest of the seven United Arab Emirates but has the biggest population at over 2.1 million inhabitants. Size has been synonymous with Dubai as it continues to build the first, largest and the biggest constructions in the world. Dubai's dynamics are always transient and ever-changing with its constant urge to construct something better and bigger than the previous. If there was a Palm Island, Nakheel thought of the World Island. Burj Al Arab seemed too timid when Burj Khalifa cropped up, distancing itself from being a loner in the crowd. Dubai constantly dwells in a suppressive competition with itself trying to magnetize tourists to a dreamy world of attractions and unheard of luxuries. The emirate's scoring points lie in its entrepreneurial abilities to create the inconceivable found in its tourist attractions, landmarks, shopping centers, parks, nightlife, and hotels. Although it strictly safeguards its traditional practices, it allows space for other religions to breathe, a rare quality amongst the conservative Arab world. Thankfully, it has been successful in shielding itself from extremism, much-needed for it to survive.

Dubai Attractions
