A unique platform for top level research and innovation

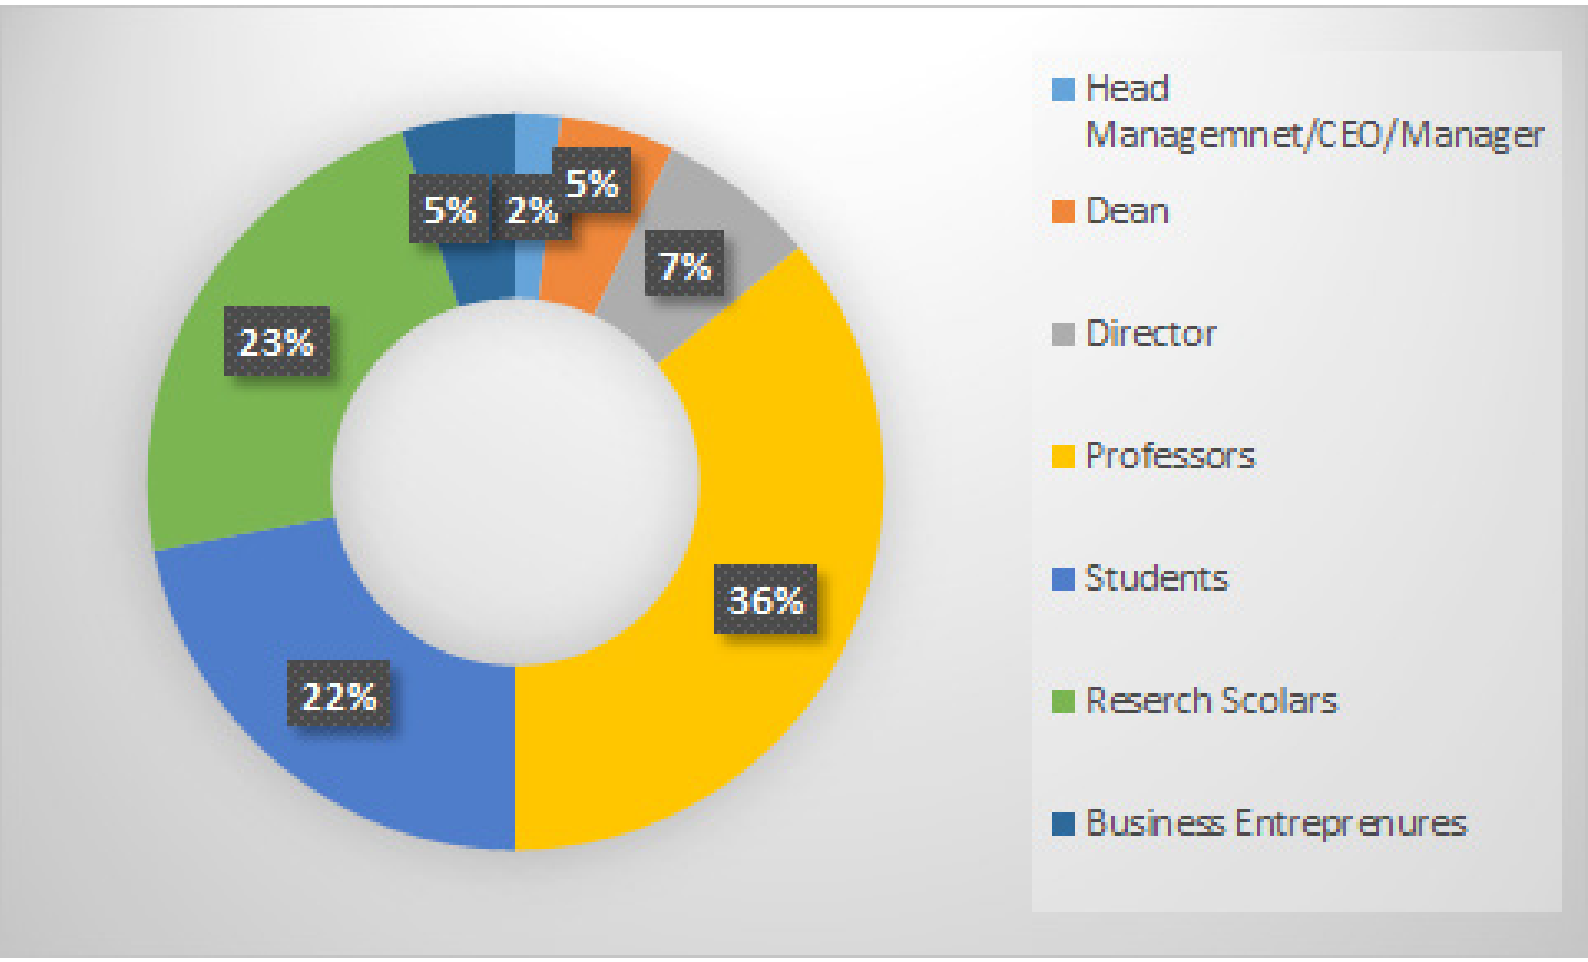

WE VALUE

Current and Future Research Directions

Peer review and high quality publication

Quality research

Explore **Singapore**

Though physically small, Singapore is an economic giant. It has been Southeast Asia's most modern city for over a century. The city blends Malay, Chinese, Arab, Indian and English cultures and religions. Its unique ethnic tapestry affords visitors a wide array of sightseeing and culinary opportunities from which to choose.

Singapore is a popular country for foreign patients seeking medical treatment. Apart from high standard of medical care which is comparable to some of the best hospitals in the world, the cost of treatment at private hospitals is still lower than that at many hospitals in the States and Europe.
