Diabetes Metabolism
2020

Invitation

Dear Attendees,

Meetings International proudly announces the World Summit on Diabetes and Metabolism scheduled during March 23-24, 2020 in Toronto, Canada. The conference emphasizes the theme "Collection of advanced therapies: Prevention of Diabetes & Metabolic Syndrome".

Diabetes is one of the most emerging diseases, which is becoming very common nowadays. Patients with high blood sugar will experience polyuria (frequent urination), meeting thirsty and hungry. With the change in life style; our endocrine system of the body is getting disturbed. In order to get innovative, the Diabetes Metabolism Conference will focus on the latest and exciting innovations in all areas of diabetes and metabolism based research offering a unique opportunity for international explorers to assemble, network, talk and grasp new scientific innovations and ideas to prevent diabetes related ailments. To allocate advance researches, developments, druggists, scientists, technology challenges and improvement and alternative therapies, this meeting forms an excellent learning.

Sincerely,

Operating Committee
