2nd World congress on

Diabetes & Metabolism

April 21-22, 2021 | Berlin, Germany

https://www.meetingsint.com/conferences/diabetesmetabolism

Invitation

Dear Attendees,

Meetings International proudly announces the ***2nd World congress on Diabetes & Metabolism*** scheduled during ***April 21-22, 2021 Berlin, Germany***.

The conference emphasizes the theme "New Advances & Future Treatments for Diabetes-Protect our Future".

The Diabetes & Metabolism 2021 gathering gives a mind-blowing opportunity to discuss the latest progressions inside the field. It will give an overall stage to look at about the present and future troubles in diabetes and metabolism guidance, continuing with preparing, medicinal strategy, center around points. It provides a great opportunity for establishing strong relations between the diabetes institutes, the general public, and government so that they can work together to achieve healthier mouths and happier lives. Diabetes & Metabolism 2021 focuses mainly on Diabetes & Endocrinology, Obesity and Metabolism, Diabetes Therapeutics and Diagnostics, Diabetes Wound Care and Management, Paediatric Diabetes and Treatment and Advanced Technologies for Treatment of Diabetes. Diabetes & Metabolism conference operation committee is providing a platform for all the budding young researchers, young investigators, postgraduate/ Master students, PhD. students and trainees to showcase their research and innovation. Berlin, capital and chief urban centre of Germany. The city lies at the heart of the North German Plain, athwart an east west commercial and geographic axis that helped make it the capital of the kingdom of Prussia and then, from 1871, of a unified Germany. Join us for Nephrology & Urology 2021 in Berlin to explore the past to build a healthy society.

Sincerely,

Operating Committee

Diabetes Metabolism 2021

Diabetes Metabolism 2021

Conference Highlights

- Diabetes Mellitus
- Diabetes and Metabolism
- Type 1 and Type 2 Diabetes, Complications and Treatment
- Diabetes & Endocrinology
- Obesity and Metabolism
- Gestational Diabetes-Treatment and Care
- Diabetes Diet, Nutrition- Eating, & Physical Activity
- Diabetes Therapeutics and Diagnostics
- Diabetes Wound Care and Management
- Paediatric Diabetes and Treatment
- Diabetes Increases Risk of Sepsis - Diabetes in Control
- Advanced Technologies for Treatment of Diabetes
- Diabetic Retinopathy
- Diabetic Nephropathy and Urine
- Advancement of New Drug/Biomarker Discovery for Treatment of Diabetes

- To identify the future directions of research
- Peer review and high quality publication
- Quality research

Berlin Attractions

Explore Berlin

Berlin, capital and chief urban centre of Germany. The city lies at the heart of the North German Plain, athwart an east-west commercial and geographic axis that helped make it the capital of the kingdom of Prussia and then, from 1871, of a unified Germany. Berlin's former glory ended in 1945, but the city survived the destruction of World War II. It was rebuilt and came to show amazing economic and cultural growth.

Germany's division after the war put Berlin entirely within the territory of the German Democratic Republic (GDR, or East Germany). The city itself echoed the national partition—East Berlin being the capital of East Germany and West Berlin a Land (state) of the Federal Republic of Germany (FRG, or West Germany). West Berlin's isolation was later reinforced by the concrete barrier erected in 1961 and known as the Berlin Wall.

Its status as an enclave made Berlin a continuous focus of confrontation between the Eastern and Western powers as well as a symbol of Western lifestyle for 45 years. The fall of the East German communist regime and the accompanying opening of the wall—in late 1989 unexpectedly raised the prospect for Berlin's reinstatement as the all-German capital.

Venue
Berlin, Germany

Important Dates

Early Bird: ***October 31, 2020***

On Spot Registration: ***April 21, 2021***

Abstract Submission Deadline: ***October 31, 2020***
