About Japan

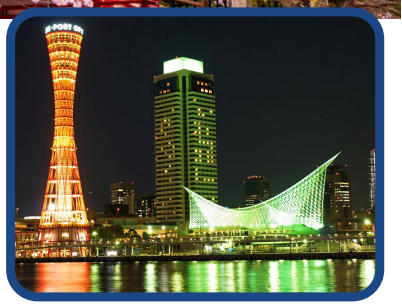

Japan is an island country in East Asia. It is situated in the northwest Pacific Ocean, and is bordered on the west by the Sea of Japan. Japan is a part of the Ring of Fire, and spans an archipelago of 6852 islands covering 377,975 square kilometers (145,937 sq mi);Tokyo is the nation's capital and largest city, followed by Osaka, Nagoya, Sapporo, Fukuoka, Kobe, and Kyoto. Japan may be very different from your home country, which means there is a great deal to learn about and explore before you arrive here. These pages will introduce you to important features of this country, such as the japanian climate and way of life. Japan is known for everything from onsen hot springs and kabuki baths to all-night neon-lit dance parties, anime, and sushi boat restaurants, all of which are decidedly more modern.Osaka commonly just is a designated city in the Kansai region of Honshu in Japan. It is the capital of and most populous city in Osaka Prefecture, and the third most populous city in Japan, following Tokyo and Yokohama. With a population of 2.7 million in the 2020 census, it is also the largest component of the Keihanshin Metropolitan Area, which is the second-largest metropolitan area in Japan and the 10th largest urban area in the world with more than 19 million inhabitants. Osaka was traditionally considered Japan's economic hub. Osaka has a large number of wholesalers and retail shops: 25,228 and 34,707 according to the city statistics. Osaka is known for its food, in Japan and abroad. Author Michael Booth and food critic François Simon of Le Figaro have suggested that Osaka is the food capital of the world.
