Meetings International WITH US

Sessions:

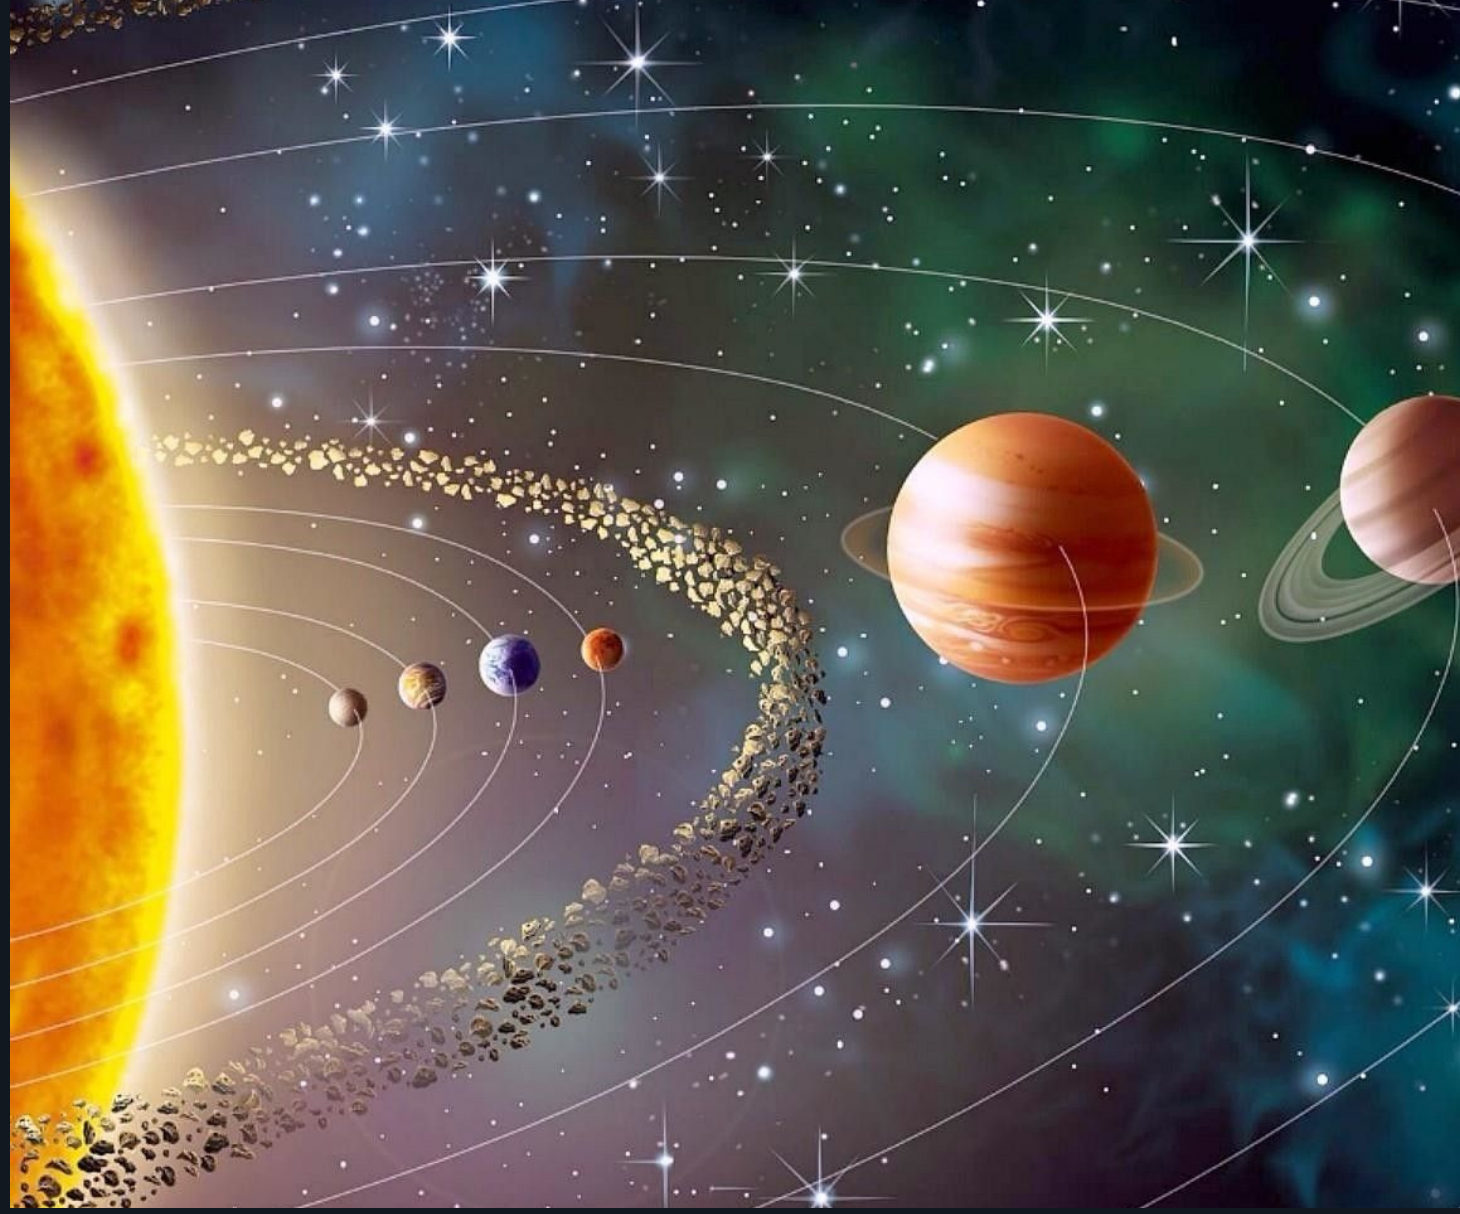

- Earth Science and Hydrology
- Oceanography & Marine Geology
- Ecology
- Petrology
- Geosciences
- Environmental Engineering
- Environment Health
- Astronomy and astrophysics
- Environmental Sociology
- Global Warming & Biodiversity
- Meteorology

Registration Prices:

Academic:
Speaker: 350 Euro
Delegate: 450 Euro
Business
Speaker: 450 Euro
Young Researcher: 250 Euro

Supporting Journals:

- Journal of Hydrogeology & Hydrologic Engineering
- Geoinformatics & Geostatistics: An Overview

6th International Conference on

Earth Science & Climate Change

June 20-21, 2022 Toronto, Canada

Theme: Water for Today and for the Future

https://www.meetingsint.com/conferences/earthscience

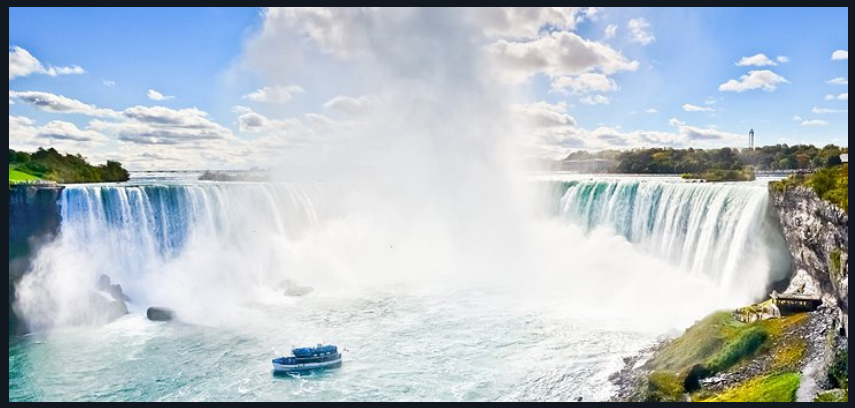

Toronto, the capital of the province of Ontario, is a major Canadian city along Lake Ontario's northwestern shore. It's a dynamic metropolis with a core of soaring skyscrapers, all dwarfed by the iconic, free-standing CN Tower. Toronto also has many green spaces, from the orderly oval of Queen's Park to 400-acre High Park and its trails, sports facilities and zoo. Toronto is located on the shore plain beside its harbour. There is a fairly abrupt rise 4 km inland which marks the shoreline of Lake Iroquois, a lake formed by glaciers 12,500 years ago that had a much higher water level than Lake Ontario.
