19th International Conference on

Emerging Materials and Nanotechnology

October 31-
November 01, 2019
Chicago, USA

Theme:

Novel Verdicts of Research in Materials Science and Nanotechnology

EuroSciCon

Emerging Materials

2019

Invitation

We would like to invite all the participants from all over the world to attend "19th International Conference on Emerging Materials and Nanotechnology" during October 31-November 01, 2019 in Chicago, USA, which includes prompt keynote presentations, Oral talks, Poster presentations, and Exhibitions.

Emerging Materials 2019 is a global platform for presenting research about Materials Science and Nanotechnology related fields. This event brings together the top professionals in the field of Materials Science and Nanotechnology along with the highly affiliated professors to explore the advancements and latest applications achieved in the field. Emerging Materials 2019 discusses various fields of Materials Science employed in Energy storage, Materials devices, Biomaterials, Bioinspired materials, Smart materials, ceramics, composite materials, next-generation materials, electrical, optical and magnetic materials, and Nanotechnology fields which mark the support for the advanced and much needed research by their study on various topics.

In the light of this theme, the Euroscicon aims to provide a forum for international researchers from various areas of Materials Science and Nanotechnology by providing a platform for critical analysis of new data, and to share latest cutting-edge research findings and results about all aspects of Materials Science world. Emerging Materials 2019 chiefly aims to provide information in analysis and advances in Materials Science and Nanotechnology. Materials Science and Nanotechnology has provided many latest researches and findings in recent times and thus Emerging Materials 2019 would be an ideal platform to showcase and experience these happenings.

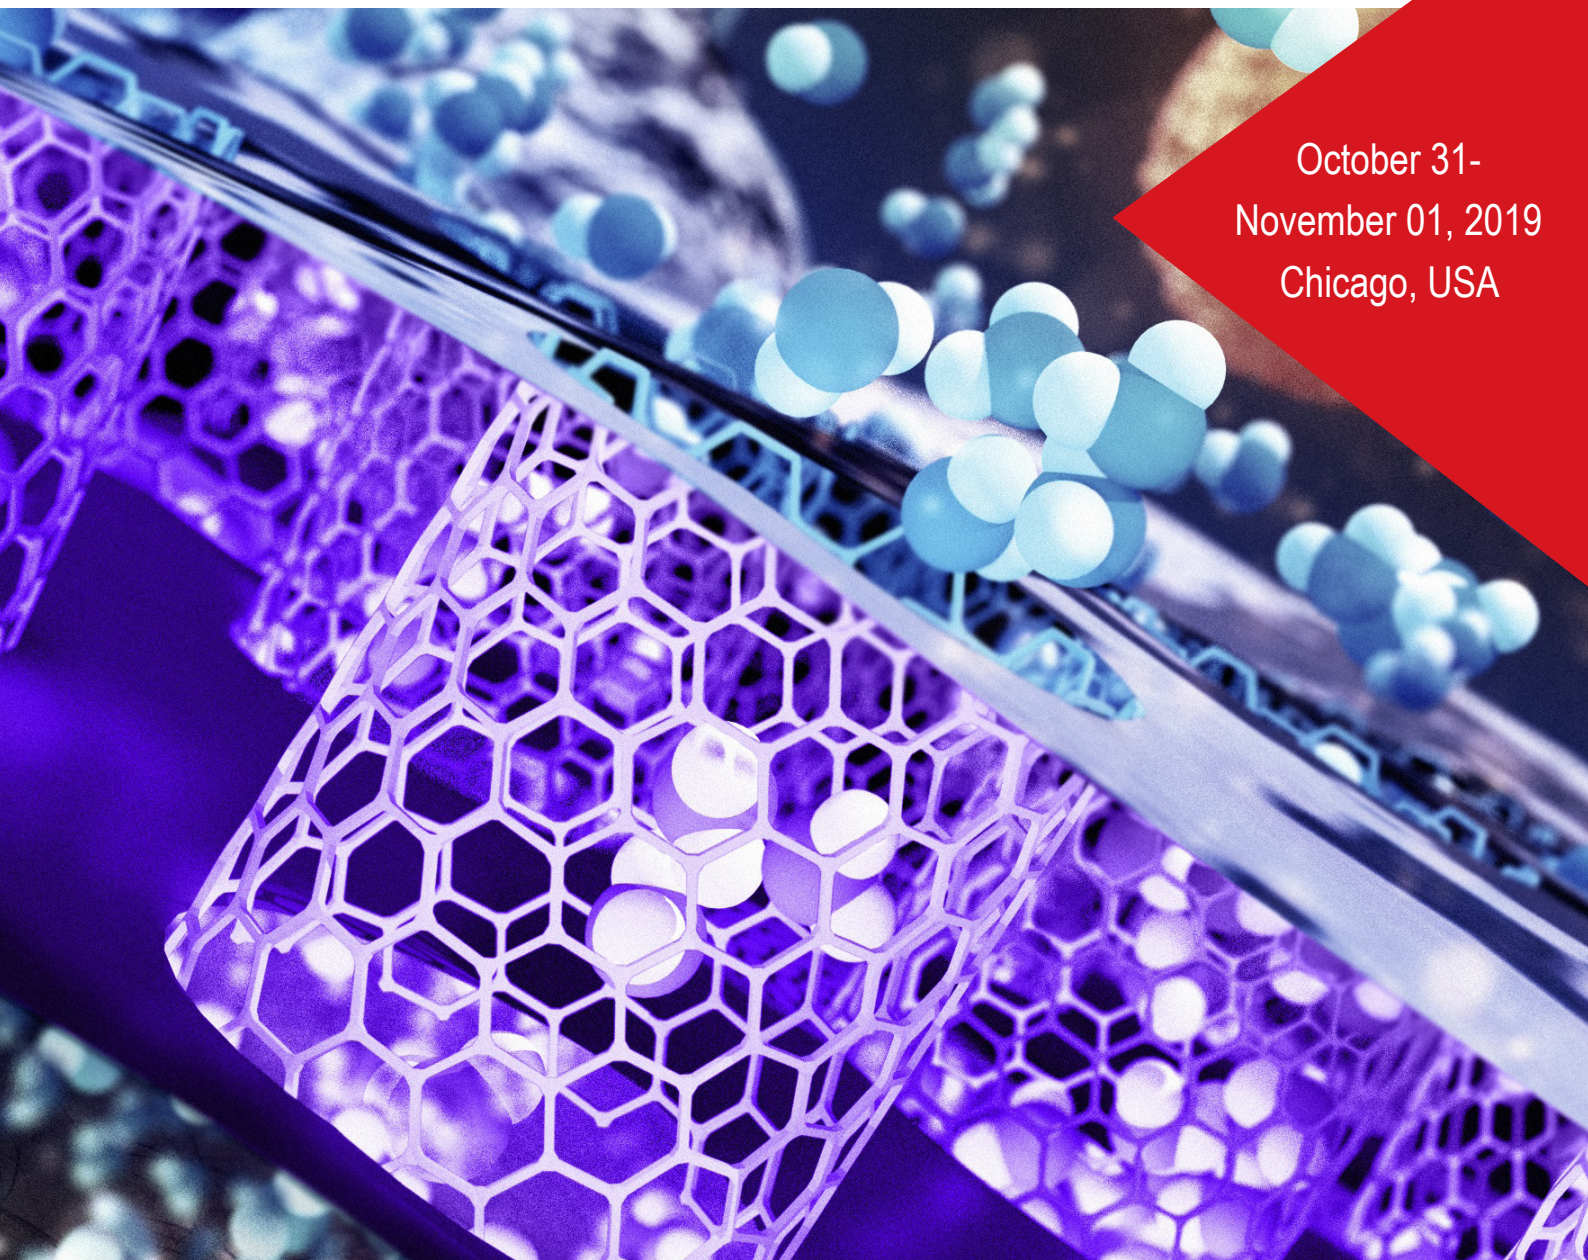

We look forward to personally welcoming you to Chicago, USA - October 31- November 01, 2019.

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action.
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

October 31-
November 01, 2019
Chicago, USA

EuroSciCon

Emerging Materials

2019

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ Materials Scientists and Nanotechnologists accessing the website, Emerging Materials 2019 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Emerging Materials Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives
Nurture connexions
Agenda format which incorporates ample Q&A time
Partake in our revamped exhibitor expo sessions
Meet and listen to the relevant clients
Unprecedented growth creating an unparalleled market place

October 31-
November 01, 2019
Chicago, USA

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience
It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
World's leading industries and companies attend
Career guidance for early career researchers and students
Provides insights you need to take your research to the next level
A huge conclave of high tech and science priests

EuroSciCon

Emerging Materials

2019

Who'd be attending?

19th International Conference on Emerging Materials and Nanotechnology plays host for the Multinational organizations, entrepreneurs across the globe, the researchers and academicians. Prominently Materials Scientists/Researchers Professors/ Nanotechnologists, Physicists/Chemists, Junior/Senior research fellows of Materials Science/ Nanotechnology, Materials Science Students, Materials Science Engineers, Members of different materials science and Nanotechnology Socities, associations and others who stay plunged in learning and practice of the science of technology.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British Society for Immunology. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Material Science And Nanotechnology
- Next-Generation Materials
- Biomaterials And Bioinspired Materials
- Energy Storage Materials
- Ceramics And Composite Materials
- Smart Emerging Materials
- Electrical, Optical And Magnetic Materials
- Surface Science And Engineering
- Materials And Devices
- Polymer Science And Technology
- Graphene And Carbon Nanostructures
- Materials Characterization And Application

2019

About Destination Chicago

Chicago is the largest city in the US state of Illinois. Chicago, Illinois, is known as the Windy City.With nearly 2.7 million residents, it is the most populous city in the Midwestern United States and the third most populous in the USA after New York City and Los Angeles. Its metropolitan area sometimes called “Chicago land” is the 27th most populous urban agglomeration in the world, the largest in the Great Lakes Megalopolis and the third largest in the United States, home to an estimated 9.8 million people spread across the US states of Illinois, Wisconsin, and Indiana.

Chicago is the county seat of Cook County the second most populous county in the United States, after Los Angeles County, California. The city is a centre for services, business and finance and is listed as one of the world’s top ten Global Financial Centers. The city’s waterfront allure and nightlife has attracted residents and tourists alike. Over one-third of the city population is concentrated in the lakefront neighbourhoods.

The city has many upscale dining establishments as well as many ethnic restaurant districts. These districts include the Mexican villages, such as Pilsen along 18th street, and La Villita along 26th Street, the Puerto Rican enclave Paseo Boricua in the Humboldt Park neighbourhood, “Greektown” along South Halsted St, “Little Italy” along Taylor St, “Chinatown, Chicago” on the South Side, “Polish Patches” in Avondale and Belmont-Central, “Little Seoul” around Lawrence Avenue, a cluster of Vietnamese restaurants on Argyle Street, and South Asian (Indian/Pakistani) along Devon Avenue. Chicago’s growth into a bustling metropolis coincided with U.S. westward expansion. Situated on Lake Michigan and the Chicago River, it became a hub of commerce in the American West. Even today, half of all U.S. freight passes through Chicago’s rail yards. O’Hare and Midway International Airports make it the country’s busiest aviation center.

EuroSciCon

Venue and Accomodation

Welcome to the Official Attendee Housing Site for the Emerging Materials 2019 which will be held in Chicago, USA.
