14TH INTERNATIONAL CONFERENCE ON

RENEWABLE & NON-RENEWABLE ENERGY

APRIL 20-21, 2020 | SINGAPORE CITY, SINGAPORE

Energy 2020

Invitation

Dear Attendees,

Meetings International proudly announces the 14th International Conference on Renewable & Non-Renewable Energy scheduled during April 20-21, 2020 in Singapore City, Singapore. The conference emphasizes the theme "Research at the Interface of Energy and Sustainability".

The Global Trends in Renewable Energy Investment 2018 report, published by UN Environment. Last year was the eighth in a row in which global investment in renewable exceeded $200 billion – and since 2004, the world has invested $2.9 trillion in these green energy sources. Overall, China was by far the world's largest investing country in renewable, at a record $126.6 billion, up 31 per cent on 2016. Solar energy dominated global investment in new power generation like never before in 2017. The world installed a record 98 gig watts of new solar capacity, far more than the net additions of any other technology – renewable, fossil fuel or nuclear and solar power attracted far more investment, at $160.8 billion, up 18 per cent, than any other technology.

Sincerely,

Operating Committee
