Meetings International

10TH WORLD ENERGY CONGRESS

October 16-17, 2019 | Singapore City, Singapore

Theme:

NEW POSSIBILITIES OF RENEWABLE AND NONRENEWABLE ENERGY FOR A SUSTAINABLE WORLD

https://www.meetingsint.com/conferences/smartenergy

Dear Colleagues

10th World Congress on Energy Conference which will be held during October 16-17, 2019 in Singapore City, Singapore. Deliberating the world, global warming suppression is compelling matter. Coping these issues, we are developing new projects involving renewable energy using innovative ideas in renewable and non-renewable Energy Conference. Open presentation and discussion in the Energy Meeting about on-going research, experiences and result quite significant toward the development of twenty-first-century technology, considering moreover the various worldwide scientific analysts to gather together. Commercial activities of humans are over-burdening our air with carbon dioxide and other unnatural weather change emanations, which trap warm, relentlessly drive up the planet's temperature and make critical and unsafe effects on our well-being, our condition, and our atmosphere. Expanding the supply of renewable energy would allow us to replace carbon-intensive energy sources and significantly reduce U.S. global warming emission.

Conference Highlights :

- Solar Energy Systems
- Wind Energy
- Hydro Power Plants
- Renewable and Non-Renewable Energy
- Bioenergy and Bio Technology
- Green Energy and Economy
- Sustainable Development
- Recycling of Waste Energy
- Fossil Fuel and Radioactive Fuels
- Global Impacts of Non-Renewable Resources

Organizing Committee Members

Peter Kiernan
Lead Analyst
Fordham University
Singapore

Sol Haroon
Director
University of Waterloo
USA

Tentative Program
10th World Energy Congress
Day 1, October 16, 2019 Singapore City, Singapore
Registration
Opening Cermony
Introduction
Keynote Forum
Title: Innovation- Only Pragmatic approach: We should always count and save money!
Vladimir Mamalyga, Ukraine
Abstract: Innovation in its modern meaning is a "new idea, creative thoughts
Title: Managing Big Data in Oil and Gas Sector
John Mathai, Singapore
Abstract: The rising demand for big data and analytics is among the major trends in the oil and gas sector
Title: Biochemical Methane Potential (BMP) Screening of Feedstock and its Application in Biogas
Dr. Ldan Chiyanzu, South Africa
Abstract: The biogas industry is a host to more than 700 anaerobic digestion plants in South Africa
Group Photo
Tea Break
Oral Session- 1
Session Introduction
Title: Private Company Involvement in Cost effective power project
Friday Howadi, Nigeria
Abstract: Modern energy services are crucial to human well-being and to a country's economic development
Title: Energy Performance Analysis of the Design Built, in the Future due to Climate Change
Aishwarya Koparde, USA
Abstract: This research is about how current buildings should be designed keeping the future prospect

About Singapore

Educational System of city: Singapore has developed as a global study market and an area thriving with technology and progress that is attracting professionals and students from around the world. Those who choose to take courses in Singapore will experience excellence in education as well as a fascinating culture and exciting lifestyle. Courses in Singapore can provide a truly unique educational experience. Many of the energy courses in Singapore utilize a variety of methods for teaching, such as discussion groups, lectures, coursework, practicums and case studies. These courses incorporate real world applications with hands on practice designed to invoke professional success. Singapore is one of the great cities of the world, with its blend of Asian and European cultures. Singapore's famed Marina Bay is the place to go to see the city's most spectacular side.
