New York Attractions

Explore New York

One of the greatest cities in the world, New York is always a whirlwind of activity, with famous sites at every turn and never enough time to see them all. Some people come here to enjoy the Broadway shows; others come specifically to shop and dine; and many come simply to see the sites: the Statue of Liberty, Empire State Building, Brooklyn Bridge, Central Park, historic neighbourhoods, and numerous world famous museums.

Many of the best places to visit in New York are within walking distance of each other, or just a short ride away, making this city a delight for sightseeing. Some of the newer tourist attractions that have opened in New York in recent years, like the High Line and One World Observatory, offer unique perspectives of the city. Any time of year and any time of day or night there are an endless array of things to see and do in New York. Although this year the city may not have its usual high-energy vibe, that doesn't mean you shouldn't visit.
