

EuroSciCon

10th Edition of International Conference and Exhibition on

Environmental Science & Technology

May 11-12, 2020
Vienna, Austria

Theme:

Better life through Pollution Control and Sustainable Environment

EuroSciCon

Environmental Sciences

2020

Invitation

EuroSciCon is glad to invite all the professionals from the Field of Chemistry & Environmental Science and Engineering to attend the International Conference and Exhibition on Environmental Science & Technology which is going to be held in the month of May 11-12, 2020 Vienna, Austria with theme “Better life through Pollution Control and Sustainable Environment”.

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action.
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

May 11-12, 2020
Vienna, Austria

EuroSciCon

Environmental Sciences

2020

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

Moreover you get to meet the industry's high priests who come from all over the Globe. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

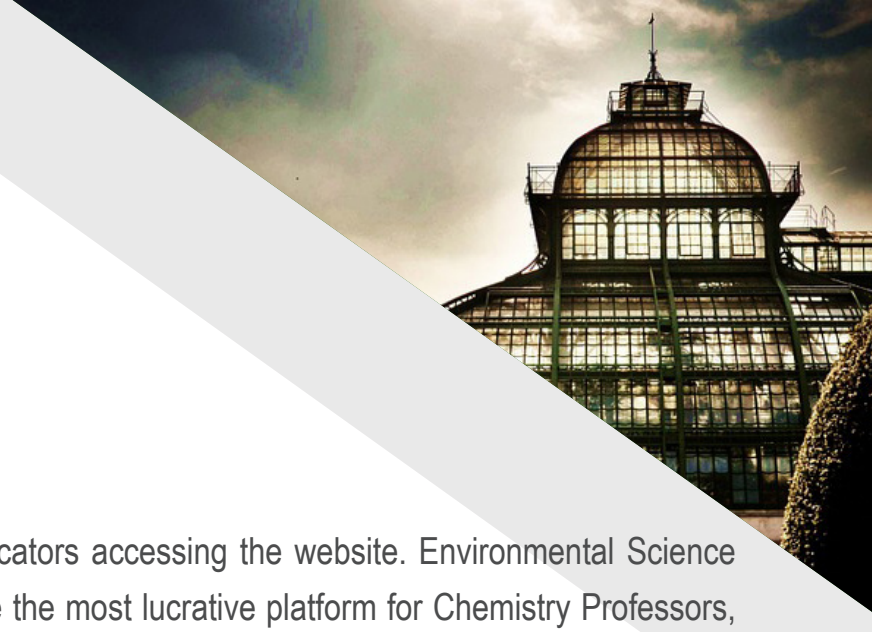

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ Chemists and Educators accessing the website. Environmental Science & Technology 2020 conferences are the most lucrative platform for Chemistry Professors, Bio-Engineering Societies, Bio-Analytical Engineering Faculty , Professors, Researchers, Academicians and Industry professionals pursuing their work in the field. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Environmental Science & Technology 2020 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives
Nurture connexions
Agenda format which incorporates ample Q&A time
Partake in our revamped exhibitor expo sessions
Meet and listen to the relevant clients
Unprecedented growth creating an unparalleled market place

May 11-12, 2020
Vienna, Austria

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience
It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
World's leading industries and companies attend
Career guidance for early career researchers and students
Provides insights you need to take your research to the next level
A huge conclave of high tech and science priests

EuroSciCon

Environmental Sciences

2020

Who'd be attending?

Chemistry Professors, Global Warming, Chemistry Engineering Faculty, Environmental Engineer Graduates & Students, Climate Change Research Scholars, RFID Scientists, Bio Analysts, Chemical Engineering Professors, Chemicals Marketers. It is a forum to explore issues of mutual concern as well as exchange knowledge, share evidence, ideas, and generate solutions.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication, Petroleum and oil-gas Industries it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British Society for Immunology. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Environmental Science And Technology
- Ecology And Climate Variation
- Environmental Pollution
- Global Environment Change
- Green Energy & Process
- Wetlands
- Renewable Energy Development & Energy Conservation
- Ecosystem Assessment And Restoration
- Recycling
- Waste Management
- Biomass & Bioenergy
- Radio Frequency Identification
- Environmental Control Technology
- Food Toxicology
- E-Waste
- Hydroelectricity
- Smart Grids And Energy Efficiency
- Biodiversity
- Geothermal
- Coastal Zones And Oceanography

About Destination Vienna

The English name Vienna is borrowed from the homonymous Italian version of the city's name or the French Vienne. The etymology of the city's name is still subject to scholarly dispute. Some claim that the name comes from Vedunia, meaning "forest stream", which subsequently produced the Old High German Uuenia.Until the beginning of the 20th century, it was the largest German-speaking city in the world, and before the splitting of the Austro-Hungarian Empire in World War I, the city had 2 million inhabitants.[13] Today it is the second largest German-speaking city after Berlin and just before Hamburg.[14][15] Vienna is host to many major international organizations, including the United Nations and OPEC. The city is located in the eastern part of Austria and is close to the borders of Czechia, Slovakia, and Hungary. These regions work together in a European Centrope border region. Along with nearby Bratislava, Vienna forms a metropolitan region with 3 million inhabitants. In 2001, the city centre was designated a UNESCO World Heritage Site. In July 2017 it was moved to the list of World Heritage in Danger.
