Day 1, Agenda

General Session

08:00 AM — INTRODUCTION

09:00 AM — PLENARY

10:00 AM — KEYNOTE

Networking & Refreshments Break

	HALL 01	HALL 02	HALL 03
11:00 AM	Talks On: **Earth Science and Climate Change**	Talks On: **Restoration Ecology**	Talks On: **Renewable Energy**
	Talks On: **Agricultural Production Systems & Agribusiness**	Talks On: **Soil Fertility & Nutrient Management**	Talks On: **Bio-Assessment and Toxicology**
	SESSION DISCUSSION	**SESSION DISCUSSION**	**SESSION DISCUSSION**
02:00 PM	Panel Over: **Environmental Chemistry**	Panel Over: **Environmental & Geodetic Engineering**	Panel Over: **Environmental Bio-Physics**
	Workshop On: **Environmental Health Science**	Workshop On: **Environmental Legislation**	Workshop On: **Environment Technology and Innovation**
	Lunch Break @ Restaurant	***Lunch Break @ Restaurant***	***Lunch Break @ Restaurant***
04:00 PM	Talks On: **Environmental Assessment and Planning**	Talks On: **Environmental Biostatistics**	Talks On: **Climate change impacts on agriculture**
	Lectures on: **Environmental Segments**	Lectures on: **Climate Hazards**	Lectures on: **Ecosystem based adaptation**
06:00 PM	Session On: **Effects of CO2 on plant growth**	Session On: **Causes of Environmental Degradation**	Session On: **Consequences of Environmental Degradation**
	NETWORKING	**NETWORKING**	**NETWORKING**

Day 2, Agenda

General Session

08:00 AM — INTRODUCTION

09:00 AM — PLENARY

10:00 AM — KEYNOTE

Networking & Refreshments Break

	HALL 01	HALL 02	HALL 03
11:00 AM	Talks On: **Restoration of Degraded Ecosystems**	Talks On: **Forest Lands**	Talks On: **Restoration of Agricultural Lands**
	Talks On: **Economic trends**	Talks On: **Growth of renewables**	Talks On: **Hydroelectricity**
	SESSION DISCUSSION	**SESSION DISCUSSION**	**SESSION DISCUSSION**
02:00 PM	Panel Over: **Radiation Fluxes in Natural Environments**	Panel Over: **Solar thermal**	Panel Over: **Toxic Chemicals in Environment**
	Workshop On: **Bio-response and Ecotoxicology**	Workshop On: **Agricultural Engineering**	Workshop On: **Agricultural Advanced Machines**
	Lunch Break @ Restaurant	*Lunch Break @ Restaurant*	*Lunch Break @ Restaurant*
04:00 PM	Talks On: **Impacts on Nutrition**	Talks On: **Quality and resource use efficiency**	Talks On: **Agricultural marketing**
	Lectures on: **Industrial agriculture**	Lectures on: **Land banking**	Lectures on: **Nutrients in soil and their functions in plants**
06:00 PM	Session On: **Soil Quality**	Session On: **Soil Degradation**	Session On: **Soil Pollution Control**
	NETWORKING	**NETWORKING**	**NETWORKING**

EuroSciCon

9th Edition of International conference on Environmental Science & Technology

June 24-25, 2019 Moscow, Russia

AGENDA

Biography

EuroSciCon

Title : Novel Generation of Windmill-Electric Generation Plants

Dr. Andrey V. Brazhnikov,
Siberian Federal University,
Russia

Andrey V. Brazhnikov completed his PhD at the age of 25 years from Tomsk Polytechnic Institute (Tomsk, Russia) in 1985. He is presently an Expert of Russian State Science Foundation (Moscow, Russia), a Doctor Honoris Causa of International Academy of Natural History (Germany), a Professor of Russian Academy of Natural History (Moscow, Russia) and an Associate Professor of Siberian Federal University, Department of Electrical Engineering (Krasnoyarsk, Russia). Now he has more than 200 published scientific works and inventions in the fields of electric machines, electric drives, renewable energy, hydromechanics, aeromechanics, mining machines, mathematics, theoretical physics, philosophy, etc. During period from 1998 till 2018 his biography was included in more than 60 biographical editions published by American Biographical Institute (USA) and International Biographical Centre (Cambridge, England). During 2016-2018 he had took part in a few International Scientific Conferences in China as the Chair and a Keynote Speaker.

Title: Integrated approach for identifying trends for changes in the state of aquatic ecosystems

Dr. Nadezhda Stepanova,
Kazan Federal, University,
Russia

Nadezhda Stepanova is the head of Department of Applied Ecology of Kazan federal university (Russia), professor, Dr. of Biology. She has published more than 100 papers in reputed journals and has been serving as an editorial board member of repute

Title : A comparative Bio Ecological study on Oreochromis niloticus from two Nilotic Canals in the delta of Egypt.

Dr.Elsayed A. Khallaf,
Minufeya University,
Egypt

Professor of fish biology and aquatic ecology, since 1993, at Minufya University, Egypt. B.Sc. (Zoology and Chemistry) from Cairo University, 1968; M.Sc. in Ecology, F. Sc., Azhar University,1977; Ph.D. in Ecology, Minufiya and Michigan Universities, 1982, Associate Prof.,1987; Professor, 1993. Awarded the University of Minufya Prize of Appreciation in basic sciences, 2017

EuroSciCon

Title: Environmental and biological effects of metal-based nanocrystals: Critical Roles of crystalline phase and exposed facets

Dr.Wei Chen,
Nankai University,
China

Wei Chen is a professor of environmental science and engineering at Nankai University, Tianjin, China, and an adjunct professor of the Department of Civil and Environmental Engineering at Rice University, Houston, TX, USA. He received his B.S. in environmental chemistry from Nankai University in 1992, and M.S. and Ph.D. in environmental science and engineering from Rice University in 1997 and 2000. Prof. Chen has been the director of Tianjin Key Laboratory of Environmental Remediation and Pollution Control since 2004, and the co-director of China–US Center for Environmental Remediation and Sustainable Development since 2007. He is currently an editor of Environmental Toxicology and Chemistry, is on the editorial (advisory) boards of Environmental Science & Technology, Environmental Science: Nano, Science of the Total Environment and Journal of Environmental Sciences, and is a member of the management committee of International Water Association (IWA) "Nano and Water" specialist group.

Title: Zinc oxide nanoparticles entreched on activated silica for water remediation using *Ocimum sanctum*

Dr.Gnanasangeetha
PSNA College of Engineering and Technology,
India

Dr. D. Gnanasangeetha hails from a serene place called Tirunlveli, which is located in the Southern part of India. She obtained her Bachelor's and Master's degree in Chemistry from Tamilnadu. She had pursued her Doctoral studies on "Green Synthesis and Water Treatment" from one of the top most universities named Bharathiar University, Coimbatore, Tamilnadu, India. She published 21 papers on various topics indexed in SCI, Scopus and Thomson Reuters. Her quest for knowledge on chemistry made her to participate in many Faculty Development Programmes and presented very informative and relevant papers in national and international conferences and seminars.

Title : Use of used plastic bags as geosynthetics

.

Dr. Mohammad Amjad Sabir,
COMSATS University,
Pakistan

Dr.Mohammad Amjad Sabir is a member of Comsats University Islamabad, Abbottabad Campus in Pakistan

SPEAKER SLOTS AVAILABLE

Title: The climate change impact on the lifestyle of storks

Ms. Silva Adamyan,
Centre of Birdlovers,
Armenia

Silva Adamyan graduated Veterinary Department of Yerevan State Zoo Technical-Veterinary Institute 1979 -1983 Her membership in Professional Societies is: Coordinator of Coalition "Environmental Public Alliance" 2005- to present Central Asia and Caucasus NGO Forum on ADB IC memberWork group coordinator in Armenia 2009- up to present and head of "Centre of Birdlovers" envarionmental NGO and Environmental public society

Title: Use of constructed weltalnd ecosystems to treat domestic wastewater before discharge to the river hirno in abbottabad, pakistan — pilot study

Mr. Arshid Pervez,
COMSATS
University,
Pakistan

He has completed his PhD at the age of 38 years from university of Bradford, UK. He has have serving in the department of environmental Science COMSATS university islamabad, Abbottaba Campus Since 2003. currently he is a professor and head of department and he published 90 papers in reputed journals and approx. 25 in international conferences

Title: Bentonite clay adsorbent for cationic pollutants removal from wastewater

Dr. Jock Asanja Alexander,
University of Jos,
Nigeria,
Nigeria

Jock Asanja Alexander holds B. Eng., M.Sc. degrees in Chemical Engineering in Ahmadu Bello University Zaria-Nigeria. He has completed his Ph.D. at the age of 45 years from Abubakar Tafawa Balewa University, Bauchi-Nigeria. During his PhD programme, he went to Universiti Teknologi Malaysia for his bench work. Jock worked in Research Institute at National Metallurgical Development Centre, Jos-Nigeria for over twelve (12) years from 2002 to 2014 where he rose to the position of Assistant Chief Chemical Engineer. He has been a lecturer since 2014 with the University of Jos-Nigeria in Chemical/petroleum Technique, Science Laboratory Technology Department. He has attended conferences within Nigeria and has published over fifteen (15) articles in reputed journals. His area of research include but not limited to; wastewater treatment, mineral processing, raw material research development & characterization, renewable energy, extraction and characterization of oils.

He is a corporate member of the Nigerian Society Engineers (MNSE), Nigerian Society of Chemical Engineers (MNSChE), and a Registered Member of The Council for the Regulation of Engineering in Nigeria (Re-COREN).

Title: Northern peatlands and their feedback to climate change: A microcosm study toevaluate the effect of temperature increase and water-table drawdown on the emission

Ms. Nazia Tabassum,
Roskilde University,
Denmark

Nazia Tabassum is currently doing masters in environmental risk at Roskilde University, Denmark. She holds a master's degree in physical geography and a 4-year BSc degree in geography and environment from the university of Dhaka, Bangladesh..

Title: Biodegradation of N-methylated carbamates by free and immobilized cells of newly isolated strain Enterobacter cloacae strain TA7

Ms. Anum fareed,
COMSATS University,
Pakistan

Anum fareed is doing PhD from the COMSATS University Islamabad, Abbottabad Campus. She has done MS in biotechnology and has 01 research publication in reputed journal..

Title: Evaluation of lignocellulosic biomass for xylitol bioproductcion.

Mr.Vishal Ahuja,
Himachal Pradesh University,
India.

Mr.Vishal Ahuja has enrolled in his PhD at the age of 28 years in Himachal Pradesh University Shimla. He is also working in NMHS project funded by MOEF & CC Govt of India for the exploration of traditional practices and medicinal plants. He has awarded with second prize in International conference for presentation.

Title: *Woodfordia fruticosa*: Multifaceted medicinal plant

Ms.Sheetal Sharma
Himachal Pradesh University,
India

Sheetal Sharma is a Master's student of Microbiology in Department of Biotechnology Himachal Pradesh University Shimla. She is hard working girl who loves challenges in research.

Title: Evaluation of antimicrobial potential *of Murraya koenigii extracts*

Ms.Sakshi
Himachal Pradesh University,
India

Sakshi is a Master's student of Microbiology in Department of Biotechnology Himachal Pradesh University Shimla. She is talented and hard working girl who loves challenges in research.
.

Title: Development and evaluation of microbial consortium for sewage treatment

Ms.Mishika Dadhwal,
Himachal Pradesh University,
India

Mishika Dadhwal is a Master's student. She is qualified national entrance conducted by JNU and enrolled for MSc. Biotechnology in Department of Biotechnology Himachal Pradesh University Shimla

Abstract

EuroSciCon

Title : Social aspects to fish catch in Songkhla Lagoon, Thailand

H Ha Thi Thu Hue
Songkla University, Thailand

She has completed my PhD at the age of 38 years from Prince of Songkla University, Thailand. I have been researcher at Central Institute for Natural Resources and Environmental Studies, Vietnam National University for 12 years. My background is Socio-Economic in environmental management, coastal resources management, climate change and statistical modelings. During my work, I had co-opeated with World Bank and some Universities in America to conducted some projects on climate change on the poor people in Vietnam as well as the trade – off between conservation and development. I have published more than 5 papers in reputed journals

Title : Heavy metal accumulation in plants growing in the abandoned monarch gold mine in francistown, botswana

A. Boitshwarelo Setuwe,
Botswana International University of Science and Technology (BIUST), Botswana

Boitshwarelo Setuwe is a 23 years final year BSc Environmental Science student at the Botswana International University of Science and Technology (BIUST). She completed her high school level in 2013 at Mogoditshane Senior Secondary School. She is a research assistant for her academic advisor Dr Venecio Ultra Jr. She recently attended an international conference for 2019 Young Environmental Scientist meeting which was held in Ghent Belgium where she gave a poster presentation on her current and first ever research topic findings.

Title : Climate change impacts and urgent agricultural adaptation in Cameroon

Tsabang Nolé
University of Yaounde I ,Cameroon

Tsabang Nolé has completed his PhD at the age of 48 years from Yaounde 1 University. He is first author and co-author of 26 and 39 articles respectively, and principal investigator of 4 books edited by Heifer International Project Cameroon. Besides Biodiversity research, He teaches Ecology, Ecophysiology, Ethnobotany, Ethnopharmacology, Environmental sciences, Agroforestry, Sustainable development and Traditional medicine, at the Faculty of Medicine and Biomedical Sciences, at the University of Dschang and at the Higher Institute of Environmental Sciences as visiting lecturer. He has higher consulting experience in Environmental and social impact assessment, Ethnopharmacology and articles reviewing.

Abstract

EuroSciCon

Title : Polyhydroxyalkanoates Production By Bacterial Consortium From Thermal Hydrolyzed Waste Sludge

Hui Wang,
Tsinghua University,
China

Professor Hui Wang received her M.S. and PhD from Jinlin University in 1994 and Chinese Academy of Science in 1997, respectively. She also conducted research in 2001-2002 as a postdoc at Department of Biology, Massachussett Institute of Technology in US. After jointing in Tsinghua University, Prof. Wang has dedicated herself in R & D in two aspects: 1. Bioremediation of contaminated soil and polluted unban water environment; 2. Novel biological processes for PHAs production from waste carbon sources with emphasis of waste sludge. She was appointed as full professor in 2009 and became the director of Dept. of Environmental Science, Tsinghua University in 2010. During the past decades, she has served as leaders or chair professors in several national key research projects for urban water pollution control in China, and has received many rewards from provincial governments and national government. She also successfully demonstrated an integrated novel biological process in a pilot scale PHA production system by using waste sewage sludge as sole raw materials in Luchun WWPT, China. Professor Wang has published over 100 international peer reviewed papers and 15 issued patents, several patents of hers have been liscenced to several companies that succeeded in bioremediation of polluted unban water environment. She also serves as editors or editorial board members in some international peer review journals.

Title : Integrated remediation technology of heavily polluted water environment

Guan Yuntao
Tsinghua
University,
China

Professor Guan Yuntao completed his PhD at the age of 27 years from Department of Environmental Science and Engineering, Tsinghua University. He was a postdoctoral fellow from 2000 to 2002 in the University of Tokyo. He was an associate professor of Tsinghua University from 2002-2010, an associate professor of Kyoto University from 2005-2009, a visiting professor of Kyoto University in 2013 and an adjunct professor of Queensland University of Technology from 2013 to 2017. Now, he is a professor and the director of Research Center for Environmental Engineering and Management, Graduate School at Shenzhen, Tsinghua University, director of Guangdong Provincial Engineering Technology Research Center for Urban Water Cycle and Water Environment Safety and vice director of State Environmental Protection Key Laboratory of Microorganism Application and Risk Control.

Title : A novel solution for urban management paradigm : Sponge city construction practice in China

Jia Haifeng
Tsinghua
University,
China

He is currently working as a professor Tsinghua University , China

Title : Development of Methodology for Environmental Effect Analysis of Electric Vehicles according to Energy Sources

Sora Yi
Korea environment Institute,
South Korea

Sora Yi has completed her Ph.D. at the age of 35 years from the University of Tokyo and postdoctoral studies from the Asian Natural Environmental Science Center. She is the director of Division for Living Environment, Korea environment Institute. She has published more than 38 papers in reputed journals and has been serving as an editorial board member of repute.

Title : Evaluation Methodology of Eco-Efficiency for Various Waste Treatment Options

Sora Yi
Korea environment Institute,
South Korea

Sora Yi has completed her Ph.D. at the age of 35 years from the University of Tokyo and postdoctoral studies from the Asian Natural Environmental Science Center. She is the director of Division for Living Environment, Korea environment Institute. She has published more than 38 papers in reputed journals and has been serving as an editorial board member of repute.

Title : Identification of GM soybean lines, Mon87708 and Mon87769 by PCR with hvbridization-fluorescence detection in “real time” mode

Tamara Stepanyan,
Moscow Veterinary Academy,
Russia

Tamara Stepanyan graduated Yerevan State Agricultural University /2001 -2006 / .

Tamara Stepanyan studies at the Moscow Veterinary Academy

Title : A newly isolated Pseudomonas sp. can degrade endosulfan via hydrolytic pathway

Habiba Zaffar
COMSATS University, Pakistan

Habiba Zaffar is doing PhD from the Habiba Zaffar Islamabad, Abbottabad Campus. She has submitted her PhD thesis for evaluation and has 8 research publication in reputed journals and along with one book chapter. Currently, she is also serving as Research Associate in COMSATS University Islamabad Abbottabad Campus

Title : Biodegradation of N-methylated carbamates by free and immobilized cells of newly isolated strain Enterobacter cloacae strain TA7

Tatheer Alam NAqvi ,
COMSATS University, Pakistan

Dr. Tatheer Alam NAqvi obtained his PhD (Microbiology) from the Quaid-i-Azam University, Islamabad, Pakistan and CSIRO, Canberra, Australia. He did two Post doctorates, one from CSIRO, Canberra, Australia and other from Institute of Microbiology, UCAS, China. He is working as Assistant Professor in COMSATS University Islamabad, Pakistan from last seven years. His PhD research was on the biodegradation of carbamates and heterologous expression of MCD. His area of interest is Extremozymes, biodegradation of xenobiotics by bacteria or their enzymes. He has more than 25 publications in reputable national and international journals

Title : Use of constructed weltalnd ecosystems to treat domestic wastewater before discharge to the river hirno in abbottabad, pakistan — pilot study

Arshid Pervez
COMSATS University, Pakistan

He has completed his PhD at the age of 38 years from University of Bradford, UK. He has been serving in the Department of Environmental Science COMSATS University Islamabad, Abbottaba Campus Since 2003. Currently working as Professor and Head of Department, and published 90 papers in reputed journals and approx. 25 in international Conferences.

Title : Removal of chromium (VI) from industrial wastewater using magnetic nanoparticles (MNPs)

Ms. Nida Maqbool
NUST,
Pakistan,

Ms. Nida Maqbool is enrolled in PhD Environmental Engineering from National University of Sciences and Technology (NUST). She is working as Assistant Professor at Institute of Environmental Sciences and Engineering (IESE) under School of Civil and Environmental Engineering (SCEE) at National University of Sciences and Technology (NUST). She has published 02 x papers on adsorption studies in reputed journals.

Title : Moving to a low-carbon economy : the way forward to meeting sustainable development goals

Dr.S. K. Sharma,
Shemford Doon
School,
India

The author has completed his Ph.D. from the University of Bordeaux, France and postdoctoral studies from Ecole Polytechnique Federale de Lausanne, Switzerland in Environmental Science . He is now teaching at the Shemford Doon School at Dehradun, India. He has published more than 35 papers in India and abroad and he is members of several international scientific societies.
