We are glad to announce the International Live Congress on Epidemiology & Novel Corona virus Diseases to be held in Singapore, Asia from March 24-25,2022 organized by Euro-SciCon ltd, UK in collaboration with generous support and cooperation from enthusiastic academicians and editorial Board Members.

Microbiology, Infective Disease Epidemiology, Cancer Epidemiology, infectious-diseases, Immune System, Analysis of Infectious Diseases Industrial Immunology, Diagnostics Of Immunology and Infection, Immunology Of Infectious Diseases, Remedy For Immunity And Infection and Study Of Evolution. As the premier event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions, and livelier interaction with industry leaders and experts.

Life is about learning every day. Make it count in your professional life. Attend Epidemiology live 2022 Conference Conference to network with your peers, exchange expertise and experiences, and arm yourself with the latest information to take your department to the next level.

We look forward to personally welcoming you to March 24-25, 2022 | Singapore City , Asia.

EuroSciCon

A Transformational Learning Experience

1. Curated to address the concerns of today's scientific world
2. Be inspired by some of the world's most renowned figures
3. Stimulate new ways of thinking and provoke action.
4. Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

With over 25000+ Practitioners and Educators accessing the website, Epidemiology live 2022 is the most lucrative platform for Microbiology Industrialists, epidemiology Industrialists, Professors, Researchers, Academicians and Industry professionals pursuing their work in the field. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Epidemiology live 2022 Salient Features:

In a world of information overload, we focus on the issues most relevant to today'stechnical trends enabling our patrons to Congregate with most senior executives Nurture connexions Agenda format which incorporates ample Q&A time Partake in our revamped exhibitor expo sessions Meet and listen to the relevant clients Unprecedented growth creating an unparalleled market place

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience
It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
World's leading industries and companies attend
Career guidance for early career researchers and students
Provides insights you need to take your research to the next level
A huge conclave of high tech and science priests

Who'd be attending?

Leading World Microbiology Industrialists, Epidemiology Professionals, Professors, Research fellows, Leading Universities, Students, Directors of association and societies. Euro Microbiology 2021 conference conference brings together individuals who have an interest in different fields of plays host for the Multinational organizations, entrepreneurs across the globe, the researchers and academicians. Prominently Immunologists, Microbiologists, and Delegates from Medical Laboratories and Drug Designing Companies, Directors/Co-Directors of Research based companies across Europe and US who are investing in Immunology and Infectious Diseases and others who stay plunged in learning and practice of the science of technology. It is a forum to explore issues of mutual concern as well as exchange knowledge, share evidence, ideas, and generate solutions.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British Society for Immunology. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Epidemiology and Public Health
- Infective Disease Epidemiology
- COVID- 19
- Cancer Epidemiology
- Tuberculosis Epidemiology
- Public Health Nursing
- Disease Control Epidemiology
- Nutritional Epimeiology
- Molecular Epidemiology
- Obesity
- Tropical Medicine
- Genetic Epidemiology
- Cardiovascular Epidemiology
- Injury Epidemiology
- Infection Control Epidemiology
- Conceptive Immunology
- Clinical Immunology
- Immunology Techniques
- Immunity And Immune System
- Immunoresearch and Immunotechnology
- Immunotherapy, Vaccination And Immunization

About Destination Singapore

Singapore, formally the Democracy of Singapore, is a independent city-state and island country in Southeast Asia. It deceits one grade north of the equator, at the southern slant of the Malay Peninsula, with Indonesia's Riau Islands to the south and Peninsular Malaysia to the north . Singapore's province consists of one main island along with 62 other atolls. Since independence, wide land retrieval has increased its total size by 23% (130 square kilometres or 50 square miles). The country is renowned for its transition from third world to first world in a single generation, underneath the leadership of its founding father, Lee Kuan Yew. Stamford Raffles initiated majestic Singapore in 1819 as a trading post of the British East India Company. After the company's collapsein 1858, the islets were capitulated to the British Raj as a crown colony. All through the Second World War, Singapore was occupied by Japan. It expanded independence from the UK in 1963 by uniting with other former British territories to form Malaysia, but parted two years later over conceptual differences, becoming a sovereign nation in 1965. After initial years of commotion and despite lacking natural resources and a vicinity, the nation developed quickly as an Asian Tiger economy, based on external trade and its personnel.
