Glimpses of Euro Microbiology 2019

Major Scientific Sessions

- Microbiology
- Coronavirus (COVID-19)
- Viral Immunology
- Viral Vaccines
- General Virology
- Discovery Of Antibiotics
- Advances In Microbiology
- Applications Of Microbes
- Clinical Microbiology
- Biotechnology
- Environmental Microbiology
- Infectious Diseases
- Medical Microbiology
- Infection & Immunity
- Food Microbiology
- Role Of Microbes In Public Health
- Microbiology & Molecular Biology
- Pathology
- Clinical Virology And Infectious Diseases

Best Poster Award

- You will be given about 5-7 minutes to present your poster including questions and answers. Judges may pose questions during the evaluation of the poster
- Judges will even evaluate the student's enthusiasm towards their study, interest and knowledge in the area of their research
- The winners will be announced at the closing ceremony of the conference. The decision of the winner will be withdrawn if the winner/winners is/are not present at the time of announcement
- Apart from the judging time you may also be present at the poster to share your research with interested delegates

Young Researchers Forum

- Present your research through oral presentations
- Learn about career development and the latest research tools and technologies in your field
- This forum will give pertinent and timely information to those who conduct research and those who use and benefit from research
- Develop a foundation for collaboration among young researchers
- The forum will provide an opportunity for collegial interaction with other young investigators and established senior investigators across the globe
- Interact and share ideas with both peers and mentors

About London, UK

The City of London is a city and county that contains the historic center and the primary central business district of London. The City is a major business and financial center. It constituted most of London from its settlement by the Romans in the 1st century AD to the middle Ages, but the agglomeration has since grown far beyond the City's borders. The City is now only a tiny part of the metropolis of London, though it remains a notable part of central London. Administratively, it forms one of the 33 local authority districts of Greater London; however, the City of London is not a London borough, a status reserved for the other 32 districts. It is also a separate county of England, being an enclave surrounded by Greater London. It is the smallest county in the United Kingdom. Today the City is a mostly commercial district dominated by the stately buildings and skyscrapers that house offices for the finance industry. There are however plenty historical landmarks that were built in an era when the City was still densely populated. The star here is the majestic St. Paul's Cathedral, but there are also noteworthy civil structures such as the Guildhall and the Leaden hall Market. And the Museum of London, which is appropriately located in the oldest part of London
