INVITATION

ABOUT CONFERENCE

Welcome to the 14th International Conference on Eye and Ophthalmology, scheduled for February 15-16, 2027, in Tokyo, Japan. Guided by the theme “Redefining Vision: Emerging Technologies, Precision Medicine & Compassionate Care,” this prestigious gathering brings together leading ophthalmologists, optometrists, vision researchers, surgeons, industry innovators, and healthcare professionals from around the globe.

The conference serves as a premier platform to exchange cutting-edge research, discuss groundbreaking innovations, andexplore the intersection of technology and human-centered care in the field of ophthalmology. From artificial intelligence and teleophthalmology to precision surgery, ocular genetics, and global eye health initiatives, the program is designed to highlight both scientific advances and their real-world impact on patients’ lives.

YOUNG RESEARCH FORUM:

Eye & Vsision 2027 and its upcoming online conferences are committed to encouraging and recognizing young researchers who make meaningful contributions to the scientific community of Ophthalmology. To honor their dedication and innovation, the conference will present Outstanding Young Scientist Awards to deserving participants.

This prestigious recognition is designed to support the professional growth of early-career researchers by providing them with a valuable platform to present their work, engage with leading experts, and exchange ideas at our international conferences. Through this initiative, Eye & Vision aims to inspire the next generation of researchers and foster excellence, collaboration, and innovation among emerging leaders in the dental science community.

CONFERENCE HIGHLIGHTS

- Lectures by the active Investigators
- Keynote forums by Renowned Speakers
- Speaker Forum
- Poster Sessions on latest Innovation in all the relevant Areas
- Panel discussions and interactive sessions
- Open Innovation Challenges
- Poster Sessions on every career stage
- Post-Doctoral Career Development Session
- Young Research Forum
- B2B Meetings
- Global Networking with 50+ Countries
- Novel techniques to benefit your research
- Best platform for Global business and Networking opportunities

TARGET AUDIENCE

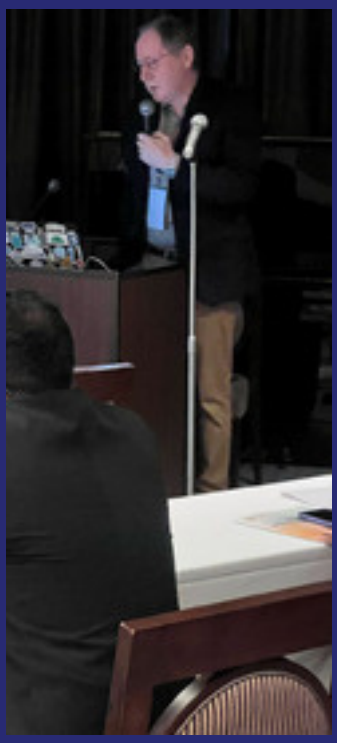

- All the Stake Holders (both Academia & Industry) of the Sector
- Researchers & Innovators
- Experts Looking for Collaborative Work
- Product Developers
- Solution Providers
- Sales & Marketing Professionals
- Associations, Societies, & Professional Bodies
- Funding Agencies & Fund Raisers
- Management Bodies
- Decision Makers

SESSION HIGHLIGHTS

- Artificial Intelligence & Machine Learning in Ophthalmology
- Oculomics & Systemic Health
- Tele-Ophthalmology & Digital Health
- Advances in Cataract and Refractive Surgery
- Glaucoma: Innovations in Diagnosis and Management
- Retina and Vitreous Disorders
- Cornea, External Diseases, and Ocular Surface Innovations
- Pediatric Ophthalmology & Myopia Control
- Neuro-Ophthalmology: Vision and the Brain
- Ocular Oncology and Pathology
- Genetics & Precision Ophthalmology
- Innovations in Surgical Ophthalmology
- Global Eye Health & Preventive Ophthalmology
- Young Ophthalmologists & Future Leaders Forum

Past Event Report:

Meetings International Conference successfully hosted its Twelth series on the “International Conference on Eye and Vision virtually. The conference was organised with a theme focused on “Visualizing the Global Advancements in Ophthalmology” and it was a great success.

Eminent keynote speakers from various universities addressed the gathering. The generous response and active participation of the organising committee members played a major role in the success of the conference. On the other hand, we take the opportunity to thank all the speakers, del- egates, and participants for providing their valuable support and time for the conference.

About Venue:

The 14th International Conference on Eye and Ophthalmology will be held on February 15–16, 2027, in Tokyo, Japan, one of the world's most dynamic destinations for science, technology, healthcare, business, and international collaboration. Tokyo provides an ideal setting for exploring the future of ophthalmology. The city is renowned for its advanced technological ecosystem, world-class infrastructure, research capabilities, and strong connection between academia, healthcare, and industry.

Tokyo is also one of Asia's leading international convention destinations, offering modern conference facilities, professional services, excellent transportation networks, and a wide range of accommodation options. Its well-connected rail and public transportation systems make it convenient for delegates traveling from Japan and overseas.

Beyond the conference sessions, participants will have the opportunity to experience Tokyo's unique combination of traditional Japanese culture and modern innovation. Visitors can explore historic temples and shrines, peaceful gardens, museums, contemporary architecture, shopping districts, and vibrant neighborhoods. The city's distinctive blend of heritage and technological progress reflects the spirit of an ophthalmology conference focused on innovation and the future of patient care.

For international participants, Tokyo's extensive transportation infrastructure and visitor services make it a convenient destination for professional gatherings. The city's major airports provide connections to numerous destinations worldwide, while its efficient urban transportation network facilitates travel throughout the metropolitan area.
