International Conference on

Fluid Dynamics & Fluid Mechanics

August 25-26, 2021 London, U.K

https://www.meetingsint.com/conferences/fluiddynamics

Invitation

Dear Attendees,

Meetings International proudly announces the International Conference on Fluid Dynamics & Fluid Mechanics scheduled during August 25-26, 2021 at London, U.K.

The conference emphasizes the theme "NEW DEVELOPMENTS IN FLUID MECHANICS-FLUID DYNAMICS AND ITS ENGINEERING APPLICATIONS".

The Fluid Dynamics 2021 gathering gives a mind-blowing opportunity to discuss the latest progressions inside the field. Mechanical Engineering, Chemical Engineering, Aerospace Engineering, Aeronautics, Computational Fluid Dynamics and other related areas like Plate Tectonics, Ocean currents, Oil Pipe Lines and Evolution of Stars. The aim of the conference is to provide a platform to the researchers, industrials and students. It gives a chance to explore research scholars, delegates and students to interact and share their experience and knowledge in Fluid Dynamics & Fluid Mechanics.

Sincerely,

Operating Committee

Fluid Dynamics 2021

Conference Highlights

- Fluid Dynamics & Fluid Mechanics
- Applied Science
- Geophysical Fluid Dynamics
- The Scope and Scale of Physics
- Aerodynamics & Aero Acoustics
- Bio fluid mechanics & Hydro dynamics -Hydro statics
- Ocean Engineering-Hydrodynamics
- Meteorology & Zoology
- Aeronautical Engineering, Mechanical Engineering and Chemical Engineering
- Physics -Classical Mechanics
- Thermodynamics
- Fluid phenomena & balanced flow

- To identify the future directions of research
- Peer review and high quality publication
- Quality research

London Attractions

Explore London

London, city, capital of the United Kingdom. It is among the oldest of the world's great cities—its history spanning nearly two millennia—and one of the most cosmopolitan. By far Britain's largest metropolis, it is also the country's economic, transportation, and cultural centre. London is situated in southeastern England, lying astride the River Thames some 50 miles (80 km) upstream from its estuary on the North Sea. In satellite photographs the metropolis can be seen to sit compactly in a Green Belt of open land, with its principal ring highway (the M25 motorway) threaded around it at a radius of about 20 miles (30 km) from the city centre. The growth of the built-up area was halted by strict town planning controls in the mid-1950s. Its physical limits more or less correspond to the administrative and statistical boundaries separating the metropolitan county of Greater London from the "home counties" of Kent, Surrey, and Berkshire (in clockwise order) to the south of the river and Buckinghamshire, Hertfordshire, and Essex to the north.

Venue
London, UK

Important Dates

Early Bird: April 30,2021

On Spot Registration: August 25,2021

Abstract Submission Deadline: July 30,2021
