About Destination Atlanta

Atlanta is the capital and most populous city of the U.S. state of Georgia. With a population of 498,715 living within the city limits, it is the eighth-most populous city in the Southeast and 38th most populous city in the United States according to the 2020 U.S. census. However, it serves as the cultural and economic heart of the much larger Atlanta metropolitan area, home to 6,144,050 people, making it the eighth-largest metropolitan area in the United States. It is the seat of Fulton County, the most populous county in Georgia. Situated among the foothills of the Appalachian Mountains at an elevation of just over 1,000 feet (300 m) above sea level, it features unique topography that includes rolling hills, lush greenery, and the most dense urban tree coverage of any major city in the United States.

Atlanta was originally founded as the terminus of a major state-sponsored railroad, but it soon became the convergence point among several railroads, spurring its rapid growth. One of those railroads included the Western and Atlantic Railroad, from which the name “Atlanta” is derived, signifying the city’s growing reputation as a major hub of transportation.
