Meetings Int. offers

An unique platform for top level research and innovation

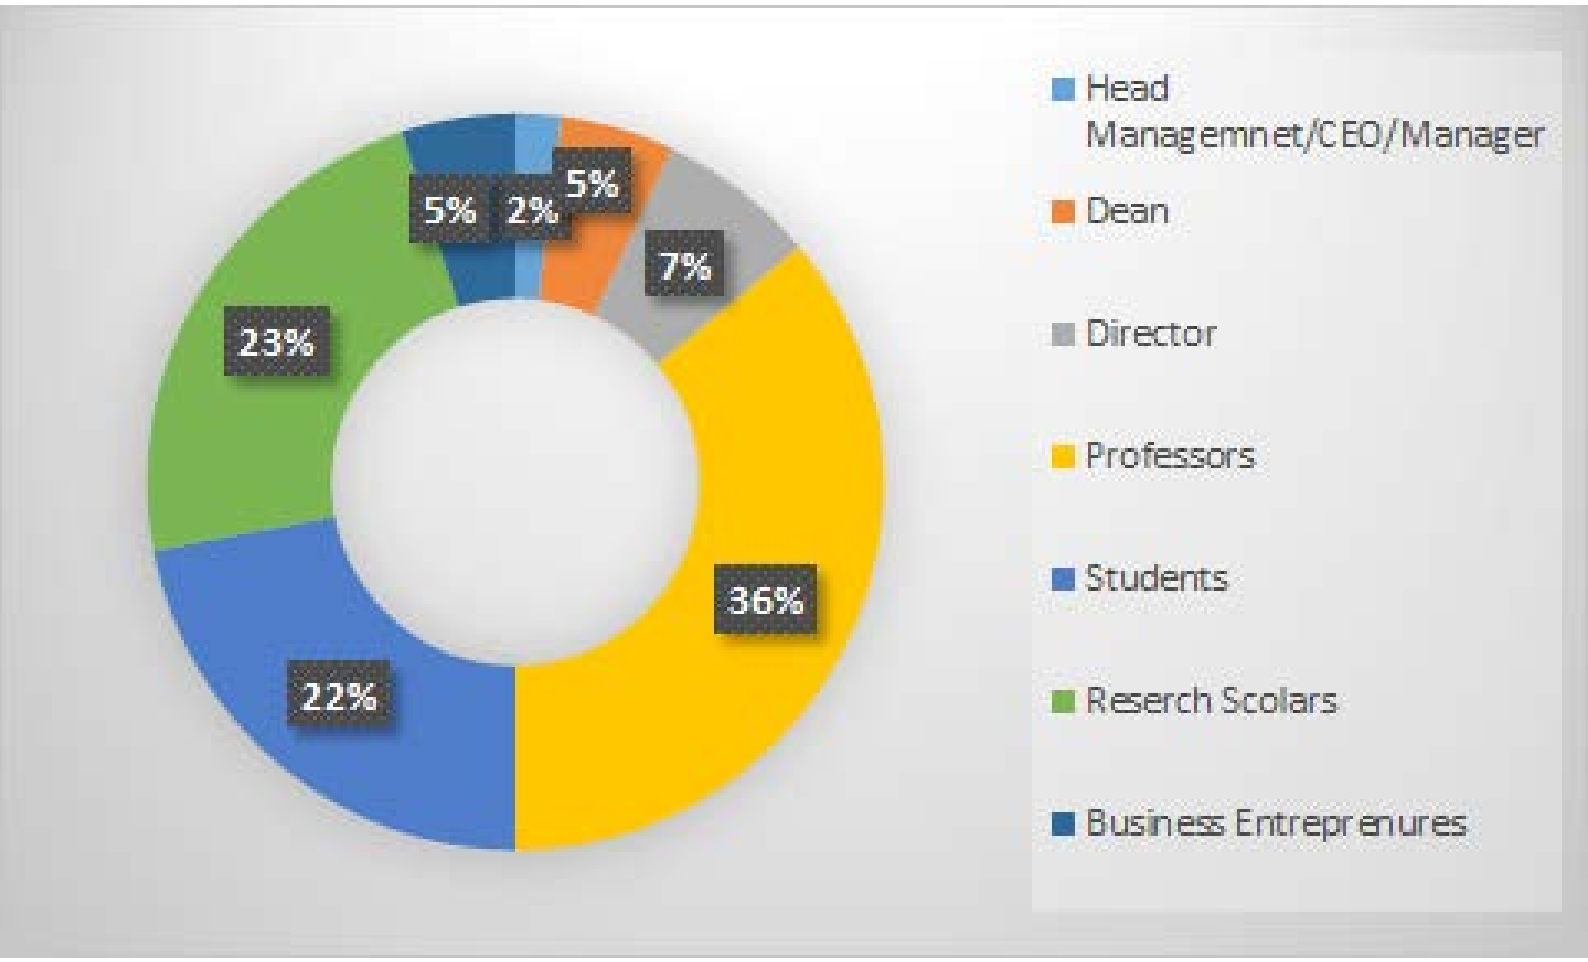

WE VALUE

To identify the future directions of research

Peer review and high quality publication

Quality research

Explore **Toronto**

Toronto is the capital of the Canadian province of Ontario. It is located within the Golden Horseshoe in Southern Ontario on the northern shore of Lake Ontario. With 2,731,571 residents in 2016, it is the largest city in Canada and fourth-largest city in North America by population. Toronto is a centre of business, finance, arts, and culture, and is recognized as one of the most multicultural and cosmopolitan cities in the world. From the mid-nineteenth century onward, Toronto has been a growing business metropolitan area. In the 1840s and 1850s, Toronto saw a rapid increase in its urbanization with steamboat port activity and railway building. The city was made the capital of Ontario in 1867, and by 1891, the city's population was over 150,000.In 1976, after 40 months of construction, the CN Tower became open to the public. Today, the CN Tower stands as the world's tallest building at 553.33 meters (1,815 feet and 5 inches). By 1998, Toronto was officially known as a "megacity." At a population of 2.4 million, it is known as the fifth largest city in North America. Canadians are known for our friendly nature, and Toronto's citizens take great pride in our welcoming, clean, safe streets - day or night, all year round.
