

EuroSciCon

March 20-21, 2023
San Francisco, USA

3rd International Conference on

Food and Packaging Technology

March 20-21, 2023 | San Francisco, USA

Theme: Advancing the biotechniques and scientific research into Food Packaging and Technology

Invitation

We are glad to announce the 3rd International Conference on Food and Packaging Technology to be held in San Francisco, USA from March 20-21, 2023 organized by EuroSciCon ltd, UK in collaboration with generous support and cooperation from enthusiastic academicians and editorial Board Members.

Leading Food Technology, Scientists, Societies, Researchers, Directors of Association, professors, Students, and other young professionals gather in San Francisco, USA to speak and explore at Food Technology -2023. , we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions, and livelier interaction with industry leaders and experts.

Life is about learning every day. Make it count in your professional life. Attend Food Technology-2023 Conference Conference to network with your peers, exchange expertise and experiences, and arm yourself with the latest information to take your department to the next level.

We look forward to personally welcoming you to San Francisco, USA - March 20-21, 2023.

EuroSciCon

A Transformational Learning Experience

1. Curated to address the concerns of today's scientific world
2. Be inspired by some of the world's most renowned figures
3. Stimulate new ways of thinking and provoke action.
4. Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

With over 25000+ Practitioners and Educators accessing the website, Food Technology-2023 is the most lucrative platform for Professors, Researchers, Academicians and Industry professionals pursuing their work in the field. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Food Technology-2023 Salient Features:

In a world of information overload, we focus on the issues most relevant to today'stechnical trends enabling our patrons to Congregate with most senior executives Nurture connexions Agenda format which incorporates ample Q&A time Partake in our revamped exhibitor expo sessions Meet and listen to the relevant clients Unprecedented growth creating an unparalleled market place

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience
It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
World's leading industries and companies attend
Career guidance for early career researchers and students
Provides insights you need to take your research to the next level
A huge conclave of high tech and science priests

Who'd be attending?

Leading World Industrialists Food Technology Professionals, Professors, Research fellows, Leading Universities, Students, Directors of association and societies. Food Technology-2023 conference conference brings together individuals who have an interest in different fields of plays host for the Multinational organizations, entrepreneurs across the globe, the researchers and academicians. Prominently Food Technology, and Delegates from Medical Laboratories and Drug Designing Companies, Directors/Co-Directors of Research based companies across Europe and US who are investing in Food Technology and others who stay plunged in learning and practice of the science of technology. It is a forum to explore issues of mutual concern as well as exchange knowledge, share evidence, ideas, and generate solutions.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British Society for Immunology. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Food Innovations
- Agriculture And Its Products
- Meat Production
- Fish Farming And Fish Products
- Food Processing
- Food Preservation
- Food Engineering
- Food Microbiology
- Food Nanotechnology
- Dairy Technology
- Food Immunology
- Engineered Microbes
- Bioprocess Engineering
- Kinetics Of Food Process
- Food Chemistry
- Food Synergy
- Food Additives
- Enzymes In Food
- Nutrition And Nutrition Therapy
- Nutraceuticals
- Foodborne Diseases And Treatment
- Food And Human Health
- Dietetics
- Food Safety And Hygiene
- Food Packaging
- Food Quality Standards
- Food Waste Management

About Destination San Francisco

San Francisco officially the City and County of San Francisco, is a commercial and cultural center in the northern region of the U.S. state of California. The city proper is the 17th most populous in the United States, and the fourth most populous in California, with 815,201 residents as of 2021. It covers a land area of 46.9 square miles (121 square kilometres), at the end of the San Francisco Peninsula, making it the second most densely populated large U.S. city after New York City, and the fifth most densely populated U.S. county, behind only four of the five New York City boroughs. Among the 331 U.S. cities proper with more than 100,000 residents, San Francisco was ranked first by per capita income (at $133,856 and fifth by aggregate income as of 2019. Colloquial nicknames for San Francisco include SF, The City, and Frisco.

San Francisco and the surrounding San Francisco Bay Area are a global center of economic activity and the arts and sciences, spurred by leading universities, high-tech, healthcare, FIRE, and professional services sectors. As of 2018, the metropolitan area, with 6.7 million residents, ranked 6th by GDP ($884 billion) and first by GDP per capita ($131,538) across OECD countries, ahead of global cities like London, Singapore, or Hong Kong. San Francisco anchors the 12th most populous metropolitan statistical area in the United States with 4.7 million residents and the fourth-largest by economic output, with a GDP of $592 billion in 2019. The wider San Jose–San Francisco–Oakland, CA Combined Statistical Area is the fifth most populous, with 9.6 million residents, and the third-largest by economic output, with a GDP of $1.09 trillion in 2019.
