International Conference on

Climate Change & Global Warming

June 15-16, 2022| Vancouver, Canada.

https://www.meetingsint.com/conferences/global-warming

Invitation

Dear Attendees,

Meetings International proudly announces the ***International Conference on Climate Change & Global Warming*** scheduled during ***June 15-16, 2022,| Vancouver, Canada***

The conference emphasizes the theme "Impacts of Global Warming and Climatic change Scenarios".

Global Warming 2022 is designed to provide an exclusive international forum for all the participants and entrants to introduce and talk about the latest advancements, challenges encountered, trends, concerns, applications and the solutions taken up for mitigating Global Warming. Global Warming 2022 will provide a concentrated learning on circulation of information; chances to arrange and talk about Environmental science, and problems related to Global warming and Climatic Changes.

Meetings International aims to bring collectively all leading academic scientists, researchers and studies pupils to trade and percentage their studies and research results on all aspects of meteorology, technology and climatology.

Sincerely,

Operating Committee

Global Warming 2022

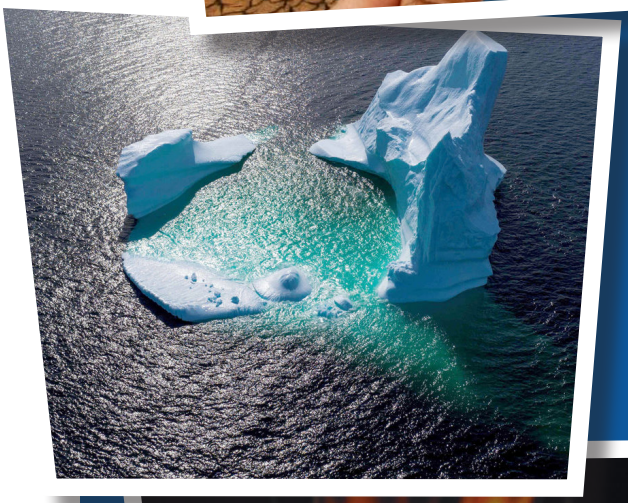

Conference Highlights

- Global Warming
- Climate Change and Climatology
- Earth Science
- Consequences of Drought on Rangelands & Forest
- Manifestation of Climatic Change
- CO2 Capture and Sequestration
- Climate Change & Biodiversity
- Environmental Toxicology
- Food Insecurity & Climate Change
- Health Consequences & Adaptability Development

Vancouver Attractions

Explore Vancouver

Vancouver, city, southwestern British Columbia, Canada. It is the major urban centre of western Canada and the focus of one of the country's most populous metropolitan regions. Vancouver lies between Burrard Inlet (an arm of the Strait of Georgia) to the north and the Fraser River delta to the south, opposite Vancouver Island. The city is just north of the U.S. state of Washington. It has a fine natural harbour on a superb site facing the sea and mountains. The city has become a centre for high-technology industries and for television and film production.

Indeed, in the early 21st century it ranked after Los Angeles and New York City as the third largest film-production location in North America, and many television programs are produced in the region. American film and TV companies are attracted to the city by its ability to "stand in" for other places, by its lower production costs, and by the professional expertise of the local crews. Vancouver's picturesque natural setting and cultural amenities helped land the city the 2010 Olympic Winter Games and Paralympic Winter Games, with about half the events scheduled at the winter sports area in Whistler, about 80 miles (130 km) north of the city. Vancouver has been home to many prominent visual artists, including painters Carr, Jack Shadbolt, Gordon Smith, Takao Tanabe, and Toni Onley; painter, sculptor, ceramicist, and performance artist Gathie Falk; and photographer Jeff Wall.

Venue
Vancouver, Canada

Important Dates

Early Bird: ***October 22, 2021***

On Spot Registration: ***June 15, 2022***

Abstract Submission Deadline: ***April 15, 2021***
