Meetings International

12TH WORLD CONGRESS ON

GRAPHENE TECHNOLOGY & MATERIALS CHEMISTRY

Graphene 2019

November 25-26, 2019 | Kyoto, Japan

INVITATION

Meetings International proudly announces the **12th World Congress on Graphene Technology & Materials Chemistry** scheduled during **November 25-26, 2019 at Kyoto, Japan.** The conference emphasizes the theme "**A NEW WAY TO ATOMIC ASSEMBLY**".

Meetings International provides an international dais for scientists and professionals to Exchange Ideas, Knowledge and Networking at its **100+ International Conferences**. To supply a forum for international researchers from varied areas of Graphnene Technology & Material Chemistry by providing a platform for appraisal of recent data, and to share latest cutting-edge analysis findings and results regarding all aspects of chemistry of the world.

Sincerely,
Operating Committee
Graphene 2019

Important Dates

Early Bird: **July 31, 2019**

Registration Open: **July 31, 2019**

Abstract Submission Open: **September 30, 2019**

On Spot Registration: **November 24, 2019**

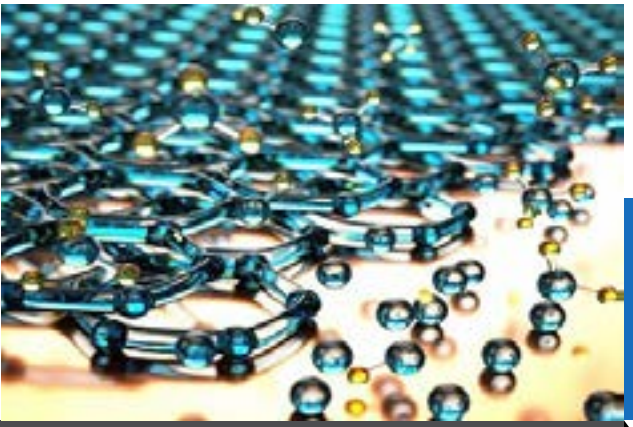

Graphene 2019

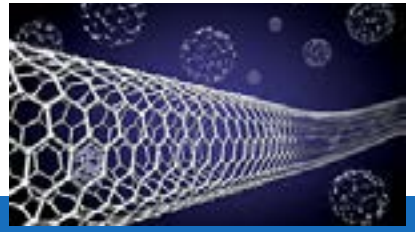

Kyoto, Japan

CONFERENCE HIGHLIGHTS

- Advances in Graphene Manufacturing Technology
- Graphene-Polymer Composites-Materials: Processing, Properties and Applications
- Emerging Trends in Graphene Research
- Graphene Functionalization
- The Nanoworld of Graphene
- Graphene and Biomaterials in the field of Healthcare
- Nanotechnology & Graphene Quantum
- Carbon, Graphite, and Graphene
- Materials Chemistry & Materials Engineering
- Graphene-3D Printing Materials & 3D Printing in Electronics
- Graphene-based hybrid materials, nanomaterials and their electrochemistry
- Applications of Graphene Technology and related 2D 3D materials

Meetings Int. offers

An unique platform for top level research and innovation

Kyoto, Japan

ABOUT KYOTO

Kyoto, once the capital of Japan, is a city on the island of Honshu. It's famous for its numerous classical Buddhist temples, as well as gardens, imperial palaces, Shinto shrines and traditional wooden houses. It's also known for formal traditions such as kaiseki dining, consisting of multiple courses of precise dishes, and geisha, female entertainers often found in the Gion district. Kyoto is located in a valley, part of the Yamashiro (or Kyoto) Basin, in the eastern part of the mountainous region known as the Tamba highlands. The Yamashiro Basin is surrounded on three sides by mountains known as Higashiyama, Kitayama and Nishiyama, with a height just above 1,000 metres (3,281 ft) above sea level. This interior positioning results in hot summers and cold winters. There are three rivers in the basin, the Ujigawa to the south, the Katsuragawa to the west, and the Kamogawa to the east. Kyoto City takes up 17.9% of the land in the prefecture with an area of 827.9 square kilometres (319.7 sq mi). The original city was arranged in accordance with traditional Chinese feng shui following the model of the ancient Chinese capital of Chang'an.
