Dear Colleagues,

Meetings International provides an international dais for scientists and experts to exchange ideas, knowledge and networking at its 100+ International Conferences.

Meetings International invites all the participants across the globe to attend the Annual Global Experts Meet On Green Chemistry and Engineering during November 26-27, 2018, Tokyo, Japan. The theme of the conference is "A Paradigm towards a sustainable Green pavement" and to encourage young minds and their research abilities by providing an opportunity to meet the experts in the field of Greenchemistry and Chemical engineering from all over the globe.

Greenchemistry 2018 will bring together world-class Chemistry Professionals, Researchers, scientists and professors to discuss strategies for development of Green Technology and Sustainability. Annual Global Experts Meet On Green Chemistry and Engineering is designed to provide a diverse and current education that will keep chemistry professionals up to date on issues affecting the holistic prospects of Green Chemistry and Engineering.

Greenchemistry 2018 is a platform set for you to come across highly qualified and experienced Scientists from around the globe working and researching in the field of Chemistry and Engineering.

Conference Highlights :

- Green Chemistry
- Green Nanotechnology
- Green Innovative Trends
- Green Analytical methodologies
- Green Catalytic modulations
- Industrial Green Chemistry
- Green Engineering policies
- Sustainable Material Management
- Green Energy Prospects
- Waste Management Strategies
- Green Biofuels and Energy
- Sustainable resources exploitation
- Green Process Formulations
- Greening Industrial Applications
- Green Technologies in Food Production & Food Processing
- Green Chemistry Metrics
