Materials Science 2021 Agenda	
April 19, 2021	
Keynote Forum	
10:30-:10:50	Title: Decarbonisation of the Road Transport with Renewable Energy
	Amela Ajanovic, Professor, Technical University of Prague
10:50-11:10	Title: Improvement of crop production of the greenhouse: validation of energetic research in agriculture field
	Douja Sellami, Thermal process laboratories, Tunisia
11:10-11:30	Title: Fluid Natural Energy Fractal Dimension for Characterizing Shajara Reservoirs of the Permo-Carboniferous Shajara Formation, Saudi Arabia
	Khalid Elyas Mohamed Elameen AlKhidir, Professor, King Saud University
11:30-11:50	Title: Night natural ventilation and energy saving in high thermal mass historical building in hot dry climate
	Hamida Bencheikh, Professor, Bath university, UK
11:50-12:10	Title: Solar harvesting via transparent thin films of porphyrin compounds for photothermal and photovoltaic dual modality building skins
	Donglu Shi, Professor, University of Cincinnati, USA
