Invitation

Gynecology 2018

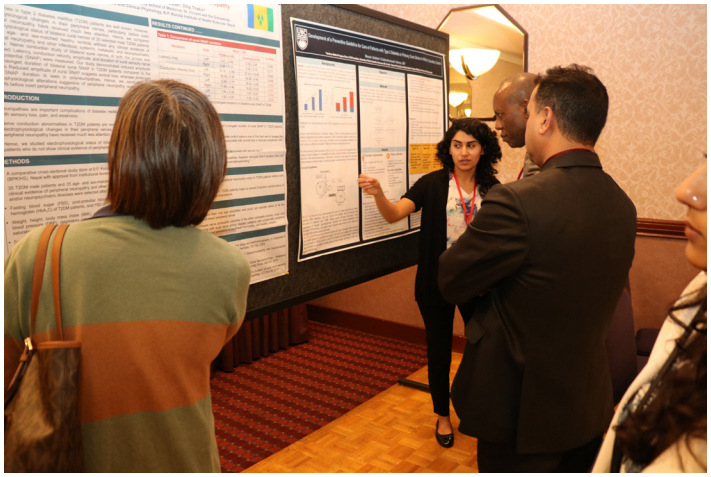

Meetings International proudly announces the ***International Conference on Gynecology and Obstetrics*** scheduled during ***October 25-26, 2018*** in ***Armsterdam, Netherlands***. The conference emphasizes the theme "New Artistry and Experimentation in Women Health".

Meetings International provides an international dais for scientists and medical science professionals in the field of Women Health to Exchange Ideas, Knowledge and Networking at its **100+ International Conferences**. The importance of women health has come into spotlight in the recent years. Women need health care and access to the health care system. Thus, priorities are given to the women related issues now more than men as women suffers from more health related issues. Research work related to women health care has increased in the present time for the betterment of the future..

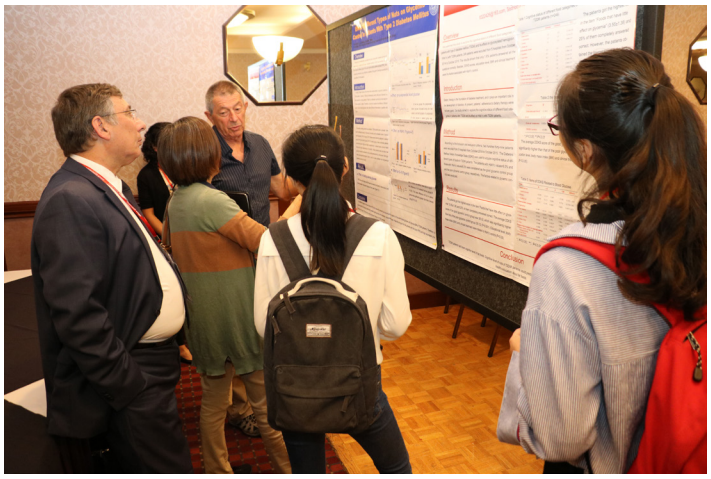

Sincerely,
Operating Committee

An unique platform for top level research and innovation

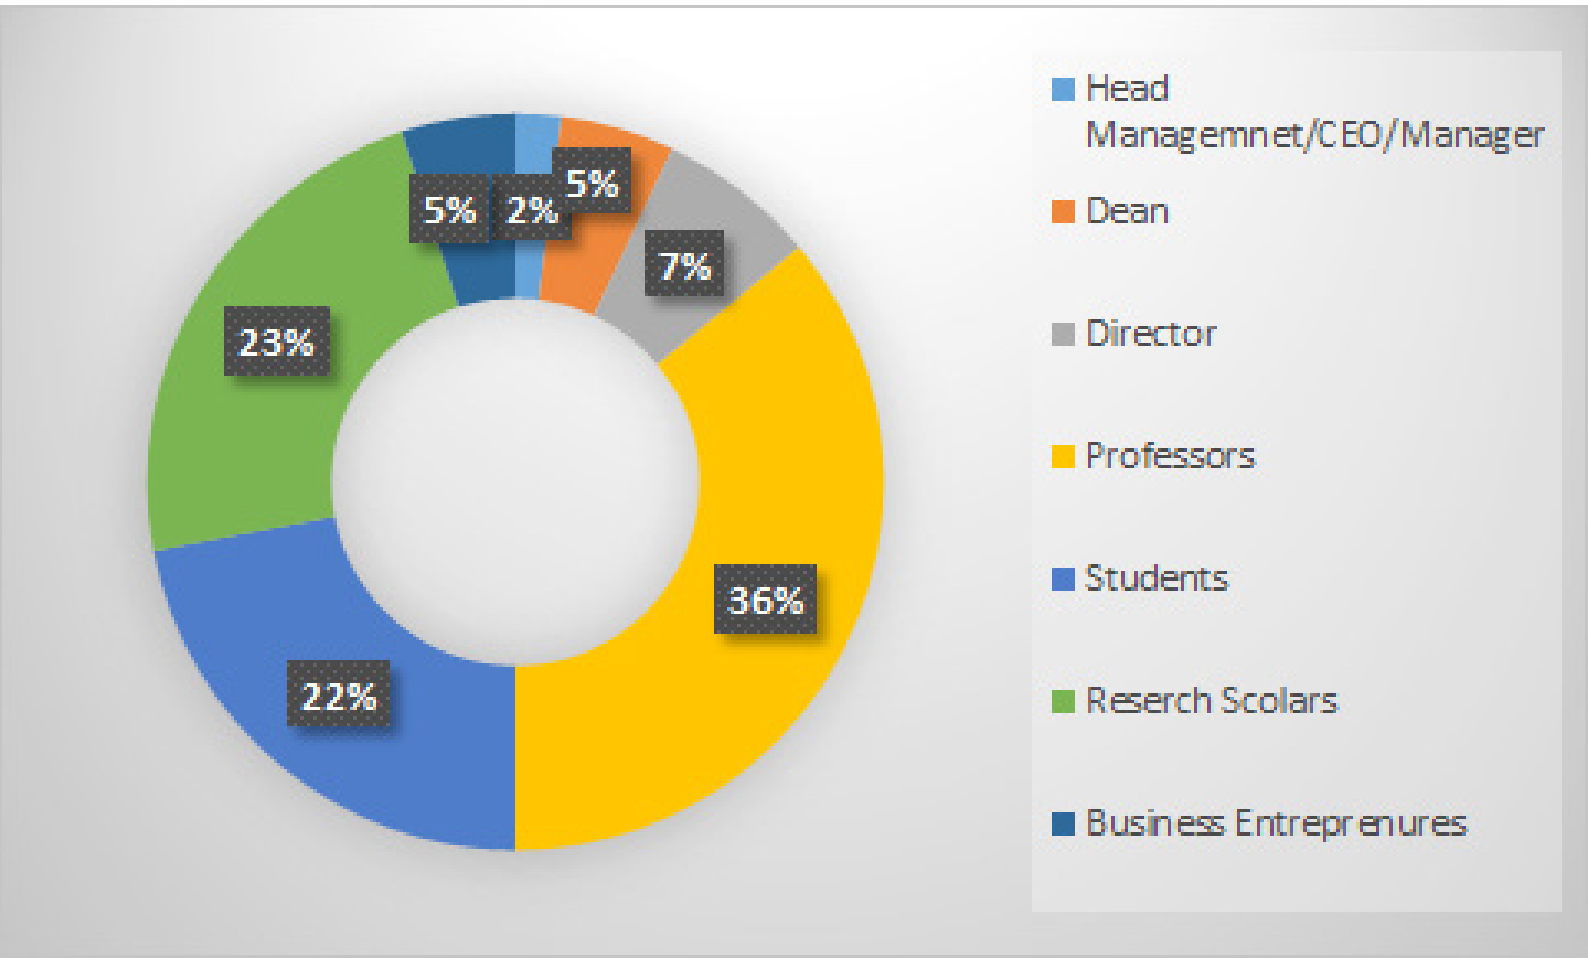

WE VALUE

To identify the future directions of research

Peer review and high quality publication

Quality research

Explore Armterdam

Amsterdam, the capital of the Netherlands which is famous for its canals, beautiful houses. It is most popular tourist station in Europe with its universities, academies, and research institutes. It is also having more than 40 museums, many theatres, and entertainment venues. It is the country's leading cultural place and is famous for its historic homes. Some thousands of buildings dating from the 16th to 18th centuries are crowded into an area of 2,000 acres, dissected by 160 canals, themselves home to numerous houseboats. Due to its innovative developments in trade, it became one of the most important ports in the world during the Dutch Golden Age. The city was the leading centre for finance and diamonds that time. The 17th-century canals of Amsterdam and the 19th–20th century defence line of Amsterdam are on the UNESCO World Heritage List. It is regarded as an alpha world city by the Globalization and World Cities study group.
