Video Presentation 2	15:55-16:05
Coffee Break & Networking	16:05-16:30
Workshop/ Special Session	16:30-17:00
Innovations in 3D printing	

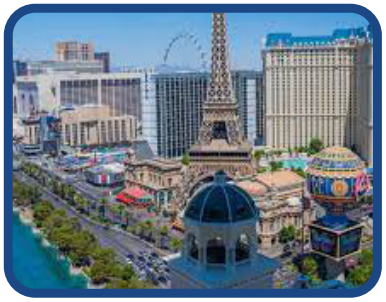

About Las Vegas

Las Vegas, city, seat (1909) of clark county, southeastern Nevada, U.S. The only major city in the American West to have been founded in the 20th century, Las vegas grew from a tiny, desert-bound railroad service centre at the outset of the 20th century to the country's fastest-growing metropolis at century's end. This transformation—made possible by a combination of shrewd entrepreneurship, access to water, an extensive transportation network, and permissive state laws—has created the city now often known simply as "Vegas," a place of vast casinos, elaborate hotels, and spectacular entertainment venues that attracts masses of visitors from throughout the world.

Las Vegas is a place of million-lightbulb signs and fantastic architecture, of readily visible wealth and carefully hidden poverty. It is a place of superlatives, both positive and negative. Within the city stand the largest glass pyramid in the world; one of the largest hotels in the country, with more than 5,000 rooms; and one of the most expensive hotels ever constructed, the Bellagio.

The area along Las Vegas Boulevard and its adjoining near-downtown streets—the famous "Strip"—is the "City Without Clocks," whose multibillion-dollar economy is devoted to servicing a wide array of impulses and addictions of many kinds.
