2019

About Sydney

Sydney A beautiful ,elegant city of Australia with wonderful weather and a tourist hub with different culture, food, fashion, celebration with quantity and quality of imperial life yet remarkable in science and research too Plans to gather prominent educational scientists, researchers and instructors to discuss about the gynecologic oncology, the current scenario, cause, remedies and cure in the 7th International Conference on Gynecology and Gynecologic Oncology 2019.

The most beautiful, exhilarating city in the world is Sydney. It is the capital of the state of New South Wales, Australia. Sited on Australia's south-eastern coast, Sydney is the country's prime city and, with its splendid harbour and strategic position, is one of the most vital ports in the South Pacific. In the early 19th century, when it was still a small convict settlement and the first settlers had barely penetrated the interior, it had already conventional trade with the Americas, India, China, South Africa, and Pacific Islands.

Sydney is, most of all, a city for physical pleasure. Sydney is also a city of yachting.
