

EuroSciCon

3rd EuroSciCon Congress on

Heart Disease & Interventional Cardiology

April 27-28, 2020
Rome, Italy

Theme:

New insights in Cardiac Health and Cardiac Medicine

EuroSciCon

Heart Disease & Interventional Cardiology

2020

Invitation

Euroscicon is glad and proud to welcome to attend the Heart Disease & Interventional Cardiology during April 27-28, 2020, Rome, Italy with a theme “New insights in Cardiac Health and Cardiac Medicine”. EuroSciCon through its Open Access Initiative is committed to make genuine and reliable contributions to the scientific community. Heart 2020 aims with total 27 tracks to discover advances in health practice, management and education in relation to health disparities as well as a breadth of other topics.

Heart Disease & Interventional Cardiology conference brings together individuals who have an interest in different fields leading educational scientists, researchers and research students to exchange & share their experiences and research results about all aspects of Cardiology and Congenital Heart Diseases. It also gives opportunities to the nursing societies to showcase their knowledge and have face to face meetings with scientists increasing their business opportunities and also gives opportunity to know about their market competitors.The Organizing Committee has done its best to set up a framework that we think will allow for a creative interplay of ideas. We assure our attendees will return with a confidence in sharing and gaining knowledge from the experts to improve their nursing practice and equipped with certified procedures to work with.

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action.
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

2020

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ Heart Disease & Interventional Cardiology aims to gather leading educational scientists, researchers and research students to exchange & share their experiences and research results about all aspects of Cardiology.

Heart Disease & Interventional Cardiology Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives
Nurture connexions
Agenda format which incorporates ample Q&A time
Partake in our revamped exhibitor expo sessions
Meet and listen to the relevant clients
Unprecedented growth creating an unparalleled market place

April 27-28, 2020
Rome, Italy

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience
It organizes 3500+ Conferences across the globe connecting different sciences in 30+ countries
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
World's leading industries and companies attend
Career guidance for early career researchers and students
Provides insights you need to take your research to the next level
A huge conclave of high tech and science priests

EuroSciCon

Heart Disease & Interventional Cardiology

2020

Who'd be attending?

Heart Disease & Interventional Cardiology aims to gather leading educational scientists, researchers and research students to exchange & share their experiences and research results about all aspects of Cardiology.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 17 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking.

Scientific Sessions:

- Cardiac & Cardiovascular Research
- Cardiovascular diseases
- Clinical Cardiology
- Cardiomyopathy
- Hypertensive Heart Disease
- Heart Failure
- Inflammatory Heart Disease
- Cardiac Dysrhythmias
- Valvular Heart Disease
- Congenital Heart Disease
- Rheumatic Heart Disease
- Coronary Artery Disease
- Peripheral Arterial Disease
- Cerebrovascular Disease
- Heart Attack Risk Factors
- Heart Devices
- Heart Surgery
- Heart Diseases Diagnosis and Treatment
- Cardiac Pharmacology
- Advances in Heart Education
- Interventional Cardiology
- Cardiac Nursing
- Clinical Trials in Cardiology
- Cardiovascular Genomics and Genetics
- Pediatric Cardiology
- Cardiovascular Medicine

2020

About Destination Rome

Rome, Italian Roma, memorable city and capital of Roma provincia (area), of Lazio regione (district), and of the nation of Italy. Rome is situated in the focal part of the Italian landmass, on the Tiber River around 15 miles (24 km) inland from the Tyrrhenian Sea. When the capital of an old republic and domain whose armed forces and commonwealth characterized the Western world in days of yore and left apparently permanent engravings from that point, the otherworldly and physical seat of the Roman Catholic Church, and the site of significant zeniths of masterful and scholarly accomplishment, Rome is the Eternal City, remaining today a political capital, a strict focus, and a commemoration to the innovative creative mind of the past.

For well over a thousand years, Rome controlled the fate of all human advancement known to Europe, yet then it fell into disintegration and deterioration. Physically ruined, financially incapacitated, politically decrepit, and militarily inept by the late Middle Ages, Rome by the by stayed a force to be reckoned with—as a thought. The power of Rome the lawgiver, educator, and developer kept on transmitting all through Europe. Despite the fact that the circumstance of the popes from the sixth to the fifteenth century was regularly problematic, Rome knew greatness as of the wellspring of Christianity and in the end won back its influence and riches and restored itself as a position of magnificence, a wellspring of learning, and a capital of human expressions.
