ABOUT OSAKA

Japan's capacity to lead free research is a definitive factor in boosting country's aggressiveness. A place for leading great research for Nephrological research and care with having establishments like Osaka University Hospital, Osaka Women's and Children's Hospital, Tokuseikai Incorporated Medical Institution, Sumiyoshi Hospital, Juso Hospitals, Osaka City General Hospital, Miyakojima Emergency Hospital and numerous more focuses will prove to be useful. With 5% of GNP, Japan is one of a kind in their science and the accessibility of research materials to modern organizations offers them phenomenal research openings. OSAKA (around 330 miles southwest of Tokyo) is the second biggest city in Japan and the thirteenth biggest city on the planet, with a populace of around 10.5 million individuals. In the region of Osaka University are found the National Cardiovascular Center, the National Institute of Biomedical Innovation, the National Museum of Ethnology and numerous other instructive and research establishments. Faculty collaboration with these will be additionally advanced so together we may serve the group and build up our system with the world.
