

EuroSciCon

November 23, 24, 2023

Berlin, Germany

30th International Conference on

Heart

November 23-24, 2023 | Berlin, Germany

Theme: Global Impact on the Innovative researches on Heart, Treatment & Elimination of Heart Diseases

Invitation

We are glad to announce the **30th International Conference on Heart** to be held in **Berlin, Germany** from **November 23-24, 2023** organized by EuroSciCon ltd, UK in collaboration with generous support and cooperation from enthusiastic academicians and editorial Board Members.

Cardiomyopathy, Cardiovascular Medicine, Heart Failure, Pulmonary Heart Disease, Congenital Heart Disease, Coronary Artery Disease, Heart Attack Risk Factors, Cardiac Nursing, Cardiac Surgery, Pediatric Cardiology, Clinical Cardiology, Cardiovascular Diseases, Interventional Cardiology, Advances In Heart Education and so on. As the premier event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions, and livelier interaction with industry leaders and experts.

Life is about learning every day. Make it count in your professional life. Attend **Heart Disease 2023** Conference Conference to network with your peers, exchange expertise and experiences, and arm yourself with the latest information to take your department to the next level.

We look forward to personally welcoming you to Berlin, Germany on November 23-24, 2023.

EuroSciCon

A Transformational Learning Experience

1. Curated to address the concerns of today's scientific world
2. Be inspired by some of the world's most renowned figures
3. Stimulate new ways of thinking and provoke action.
4. Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

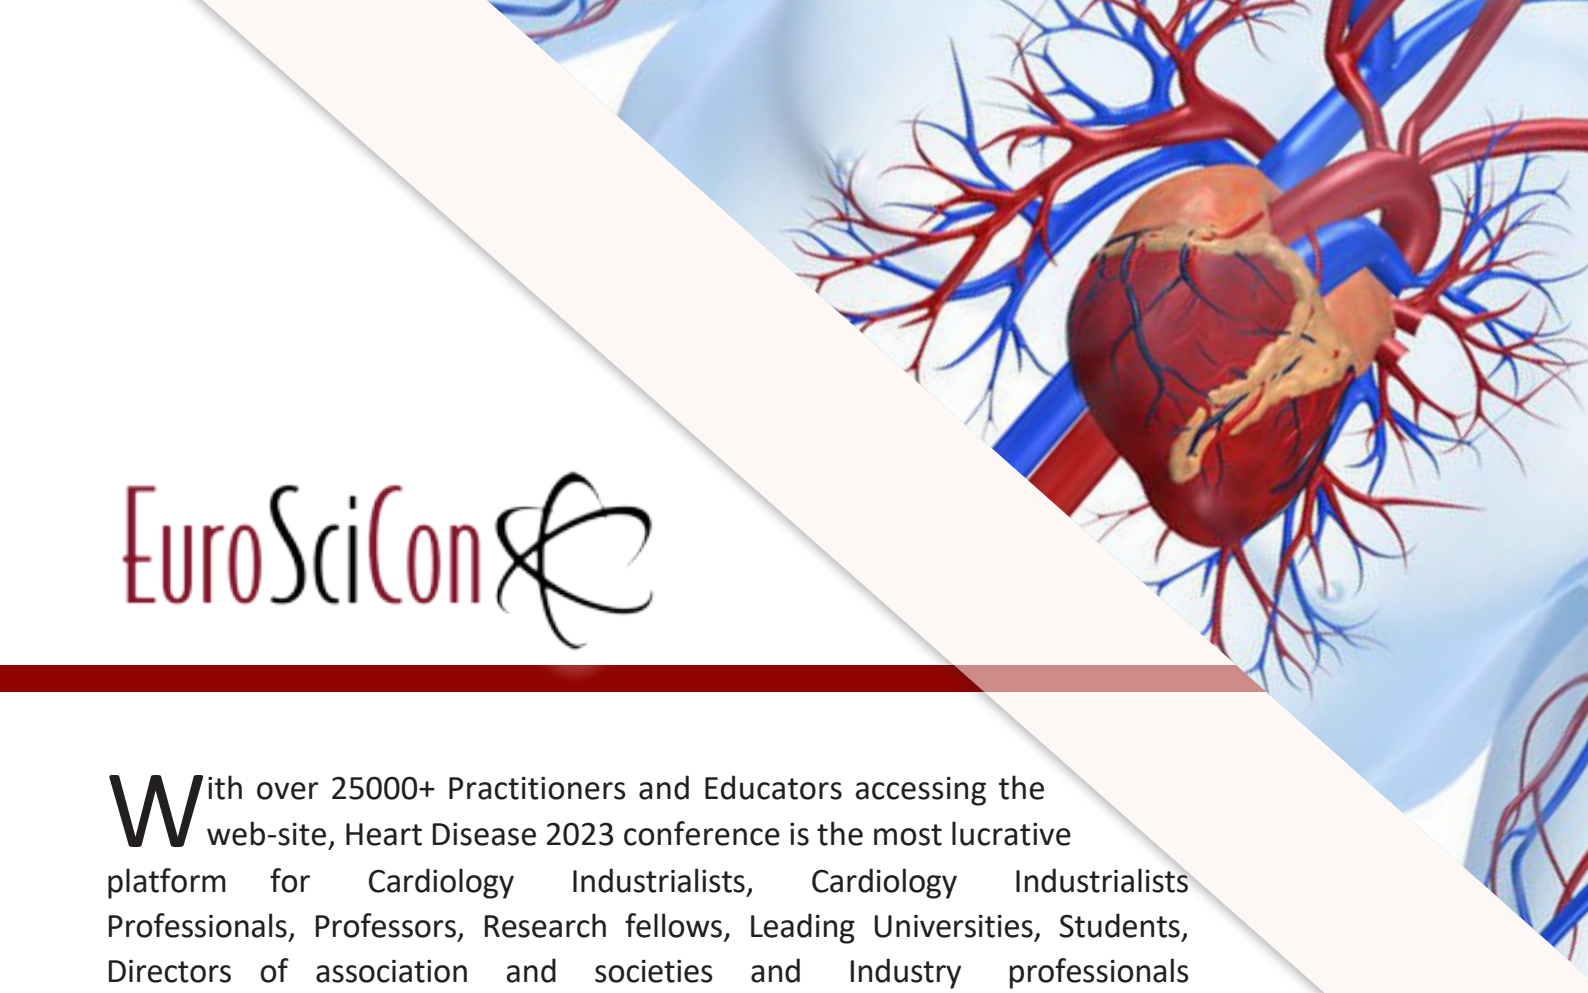

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ Practitioners and Educators accessing the web-site, Heart Disease 2023 conference is the most lucrative platform for Cardiology Industrialists, Cardiology Industrialists Professionals, Professors, Research fellows, Leading Universities, Students, Directors of association and societies and Industry professionals pursuing their work in the field. In addition to immense networking opportunities, glob-al prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Heart Disease 2023 Salient Features:

In a world of information overload, we focus on the issues most relevant to today'stechnical trends enabling our patrons to congregate with most senior executives Nurture connexions Agenda format which incorporates ample Q&A time Partake in our revamped exhibitor expo sessions Meet and listen to the relevant clients Unprecedented growth creating an unparalleled market place

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience
It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
World's leading industries and companies attend
Career guidance for early career researchers and students
Provides insights you need to take your research to the next level
A huge conclave of high tech and science priests

Who'd be attending?

Leading World Cardiology Industrialists, Cardiology Industrialists Professionals, Professors, Research fellows, Leading Universities, Students, Directors of association and societies. Heart Disease 2023 conference conference brings together individuals who have an interest in different fields of plays host for the Multinational organizations, entrepreneurs across the globe, the researchers and academicians. Prominently Cardiologists, Cardiac Surgeons, General Physicians, and Delegates from Medical Laboratories and Drug Designing Companies, Directors/Co-Directors of Research based companies across Europe and US who are investing in Cardiology and others who stay plunged in learning and practice of the science of technology. It is a forum to explore issues of mutual concern as well as exchange knowledge, share evidence, ideas, and generate solutions.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British Society for Immunology. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Cardiomyopathy
- Cardiovascular Medicine
- Heart Failure
- Cardiac Dysrhythmias
- Pulmonary Heart Disease
- Inflammatory Heart Disease
- Valvular Heart Disease
- Congenital Heart Disease
- Peripheral Arterial Disease
- Rheumatic Heart Disease
- Coronary Artery Disease
- Cerebrovascular Disease
- Heart Attack Risk Factors
- Heart Surgery
- Heart Devices
- Heart Diseases Diagnosis and Treatment
- Cardiac Pharmacology
- Advances In Heart Education
- Interventional Cardiology
- Cardiac Nursing
- Clinical Trials In Cardiology
- Cardiovascular Genomics And Genetics
- Pediatric Cardiology
- Cardiac Surgery
- Hypertensive Heart Disease
- Cardiac & Cardiovascular Research
- Cardiovascular Diseases
- Clinical Cardiology

About Destination Berlin

Berlin is the capital and largest city of Germany by both area and population. Its 3.7 million inhabitants make it the European Union's most populous city, according to population within city limits. One of Germany's sixteen constituent states; Berlin is surrounded by the State of Brandenburg and contiguous with Potsdam, Brandenburg's capital. Berlin's urban area, which has a population of around 4.5 million, is the second most populous urban area in Germany after the Ruhr. The Berlin-Brandenburg capital region has around 6.2 million inhabitants and is Germany's third-largest metropolitan region after the Rhine-Ruhr and Rhine-Main regions. There was an unsuccessful attempt to unify the two states in 1996. Though they remained separate, the two states cooperate on many matters to this day.

Berlin straddles the banks of the Spree, which flows into the Havel (a tributary of the Elbe) in the western borough of Spandau. Among the city's main topographical features are the many lakes in the western and southeastern boroughs formed by the Spree, Havel and Dahme, the largest of which is Lake Müggelsee. Due to its location in the European Plain, Berlin is influenced by a temperate seasonal climate. About one-third of the city's area is composed of forests, parks, gardens, rivers, canals, and lakes. The city lies in the Central German dialect area, the Berlin dialect being a variant of the Lusatian-New Marchian dialects.
