

EuroSciCon

Annual Conference on

Hematology

December 02-03, 2019

Florence, Italy

Theme:

Optimizing the current and upcoming trends in the field of hematology

EuroSciCon

Hematology

2019

Invitation

Welcome to Italy.

On behalf of hematology Organizing Committee, academics, Counsellors, hematologists, Health-Care Professionals, Researchers and Scientists, Training Institutes, Universities and Colleges Students, oncological experts, Business Entrepreneurs, Research scientists, Self-help group facilitators, Social workers, Teachers, Business delegates and Young researchers from the hematology and its allied areas.

The conference proceedings include symposiums and workshops, keynote speeches, plenary talks, poster sessions and panel discussion on latest research developments in the field of hematology.

EuroSciCon is the longest running independent life science events company with a predominantly academic client base. Our multi professional and multi-specialty approach creates a unique experience that cannot be found with a specialist society or commercially.

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action.
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

EuroSciCon

Hematology

2019

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

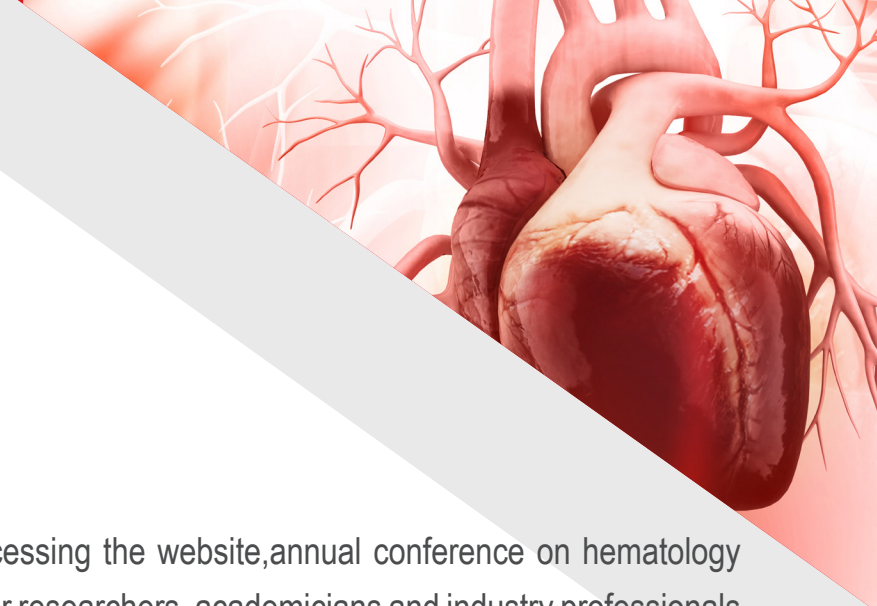

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ hematologists accessing the website,annual conference on hematology 2019 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Hematology 2019 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives
Nurture connexions
Agenda format which incorporates ample Q&A time
Partake in our revamped exhibitor expo sessions
Meet and listen to the relevant clients
Unprecedented growth creating an unparalleled market place

December 02-03, 2019
Florence, Italy

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience
It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
World's leading industries and companies attend
Career guidance for early career researchers and students
Provides insights you need to take your research to the next level
A huge conclave of high tech and science priests

EuroSciCon

Hematology

2019

Who'd be attending?

Annual Conference on Hematology gives chance to meet Academics, Counsellors, Clinical experts, Health-Care Professionals, Researchers and Scientists, Training Institutes, Universities and Colleges Students, hematologists, hematology based Companies, Business Entrepreneurs, Research scientists, Self-help group facilitators, Social workers, Teachers, Business delegates and Young researchers from hematology industry and academic field respectively and share ideas, knowledge and different views on various areas of Hematology.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British Society for Immunology. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Immuno-Hematology & Blood Testing
- Polycythaemia Vera
- Blood Transfusion
- Anaemia
- Blood Borne Diseases And STD
- Blood Carcinoma And Oncology
- New Diagnostic Techniques
- Paediatric Hematology
- Thrombocytopenia
- Haemophilia
- Bleeding Disorders
- Hemoglobinopathy
- Thrombosis
- Leucocytosis
- Hemochromatosis
- Aplastic Anaemia
- Marketing Of Haematological Products/ Artificial Blood Substitutes
- Porphyria
- Mastocytosis
- Blood Hereditary Disorders

EuroSciCon

See your work PUBLISHED

in one of our related journals

- Journal of blood research
- Journal of Clinical and Molecular pathology
- Journal of Blood research and Hematologic diseases

December 02-03, 2019

Florence, Italy

About Destination Italy

Florence was a focal point of medieval European exchange and account and one of the wealthiest urban areas of that time. It is viewed as the origination of the Renaissance, and has been classified “the Athens of the Middle Ages”. Florentia (“The Flourishing Town”) was established in 59 BCE as a settlement for troopers of the armed forces of Rome and was spread out as a rectangular battalion town (castrum) beneath the peak Etruscan town of Faesulae. Although a large portion of the city of Florence was a formation of the early Renaissance period, the city’s Roman beginnings as a run of the mill castrum, or battalion town, can still be perceived. Florence is the capital city of the Italian district of Tuscany. It is the most crowded city in Tuscany. The city draws in a large number of tourists every year, and UNESCO announced the Historic Center of Florence a World Heritage Site in 1982. The city is noted for its way of life, Renaissance craftsmanship and engineering and landmarks. The city likewise contains various exhibition halls and craftsmanship displays, for example, the Uffizi Gallery and the Palazzo Pitti, and still applies an impact in the fields of art, culture and legislative issues. Due to Florence’s artistic and architectural heritage, Forbes has positioned it as a standout amongst the most wonderful urban areas on the planet. Florence has various historical centers, for the most part dedicated to painting and sculpture. The National Central Library (Biblioteca Nazionale Centrale) has been the Italian library of store since 1870, getting a duplicate of each book distributed in the nation. It houses a great many signatures, compositions, letters, incunabula, and books, including numerous uncommon versions. Florence’s area in a little bowl circled by slopes is a deciding element for its variable atmosphere. Summers will in general be incredibly sweltering and damp, and winters are cool and wet.
