

EuroSciCon

April 28-29, 2021
Brussels, Belgium

25th Edition of International Conference on

Immunology & Infectious Diseases

Theme: Role of Immune System towards Infectious Diseases and Viral Pandemics

Invitation

Dear Attendees,
On behalf of the Immunology and Infectious Diseases Advisory Committee we take great pleasure in welcoming academic scientists, researchers, research scholars, students and experts of application fields to London, UK for the 25th Edition of International Conference on Immunology and Infectious Diseases to foster the advancement in the field by contributing with your expertise to what promises to be a very comprehensive and exciting conference, and to enjoy the globally famous major resort city.

The event will have Keynote speakers, Plenary speakers, Invited speakers and fresh contributed speakers. In addition, a variety of poster presentations along with workshops and special sessions would be interested in listeners.

The aim of the Immunology and Infectious Diseases 2021 is to promote quality research and real-world impact in an atmosphere of true international cooperation between scientists and engineers by bringing together again the world-class researchers, International Communities and Industrial heads to discuss the latest developments and innovations in the fields of Vaccines.

We sincerely hope that Immunology and Infectious Diseases Conference serves as an international platform for meeting researchers from around the world, widen professional interaction and create new opportunities, including establishing new alliances.

We are looking forward to seeing you at Immunology and Infectious Diseases 2021 in Brussels, Belgium.

Sincerely,
Immunology and Infectious Diseases 2021
Organizing Committee

EuroSciCon

A Transformational Learning Experience

1. Curated to address the concerns of today's scientific world
2. Be inspired by some of the world's most renowned figures
3. Stimulate new ways of thinking and provoke action.
4. Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ parasitologists accessing the website, Parasitology 2021 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Immunology & Infectious Diseases 2021 Salient Features:

In a world of information overload, we focus on the issues most relevant to today'stechnical trends enabling our patrons to Congregate with most senior executives Nurture connexions Agenda format which incorporates ample Q&A time Partake in our revamped exhibitor expo sessions Meet and listen to the relevant clients Unprecedented growth creating an unparalleled market place

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience
It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
World's leading industries and companies attend
Career guidance for early career researchers and students
Provides insights you need to take your research to the next level
A huge conclave of high tech and science priests

Who'd be attending?

Immunology & Infectious Diseases 2021 is aimed to give an opportunity that with scholars from around the world focused on learning about Immunology & Infectious Diseases and its advances; this is the best opportunity to reach the largest gathering of participants from the Immunology & Infectious Diseases community. It provides an explicit platform for presentations distributes information, meets with current and potential scientists. World-renowned speakers, the most recent techniques, developments, and the latest updates in Vaccines & Immunology are hallmarks of this conference.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British Society for Immunology. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

Clinical Immunology & Current & Future Research

Molecular Immunology

Tumour Immunology

Mucosal Immunology

Transplantation Immunology

Neuroimmunology

Immunodermatology

Immunogenetics

Vaccines and Immunization

Innate Immune Responses

Immuno Research & Immunotechnology

Nutritional Immunology

Reproductive Immunology

About Destination Brussels, Belgium

Brussels is the capital of Belgium. Brussels is located in one of the most urbanised regions of Europe, between Paris, London, the Rhine-Ruhr (Germany), and the Randstad (Netherlands). The Brussels-Capital Region has a population of around 1.2 million and has witnessed, in recent years, a remarkable increase in its population. In general, the population of Brussels is younger than the national average, and the gap between rich and poor is wider.

Brussels has a large concentration of immigrants from other countries, and their children, including many of Moroccan (Riffian, Berber) and Turkish ancestry, together with French-speaking black Africans from former Belgian colonies, such as the Democratic Republic of the Congo, Rwanda and Burundi.

Science and technology in Brussels is well developed with the presence of several universities and research institutes. The Royal Belgian Institute of Natural Sciences houses the world's largest hall completely dedicated to dinosaurs, with its collection of 30 fossilised Iguanodon skeletons The Planetarium of the Royal Observatory of Belgium is one of the largest in Europe.

Brussels is home to a thriving pharmaceutical and health care industry which includes pioneering biotechnology research. The health sector employs 70,000 employees in 30,000 companies. There are 3,000 life sciences researchers in the city and two large science parks: Da Vinci Research Park and Erasmus Research Park. There are five university hospitals, a military hospital and more than 40 general hospitals and specialist clinics.
