Baltimore, USA

Theme:

Exploring Forthcoming Advancements in Infectiology !!

EuroSciCon

Infectious Diseases Week

2019

Invitation

Infectious Diseases Week 2019 is glad and proud to welcome to attend the 13th Edition of International Conference on Infectious Diseases Week during September 09-10, 2019 Baltimore, USA with a theme “Exploring Forthcoming Advancements in Infectiology”. Baltimore is the largest city in the State of Maryland, and the 30th-most populous city in the United States. Baltimore was established by the Constitution of Maryland and is an independent city that is not part of any county. EuroSciCon through its Open Access Initiative is committed to make genuine and reliable contributions to the scientific community. Infectious Diseases Week 2019 aims with total 18 tracks to discover advances in health practice, diagnosis, management and treatment of various infectious diseases in relation to health disparities as well as a breadth of other topics.

Infectious Diseases Week 2019 aim is to bring leading Microbiologists, Bacteriologists, Virologists, Parasitologists, Pathologists, Epidemiologists, Young inspired researchers, Associate Professors and Scholars together to share their experiences and research results and it’s development in Infectiology & Public Health.

Infectious Diseases Week 2019 also gives first in importance to provide interdisciplinary forum for Directors, Researchers, Scientists, Academicians and Educators to present, share the knowledge and discuss the most recent innovations, trends, and concerns, clinical challenges encountered and the solutions adopted in the fields of Infectious Diseases & Public Health.

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action.
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

September 09-10, 2019

Baltimore, USA

EuroSciCon

Infectious Diseases Week

2019

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences are happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business.

Moreover you get to meet the industry's high priests who come from all over the world. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ Practitioners and Educators accessing the website, Infectious Diseases Week 2019 is the most lucrative platform for Mycologists, Pathologists, Pharmacists, Epidemiologists, Pediatricians, Physicians, Nurses, Professors, Researchers, Academicians and Industry professionals pursuing their work in the field. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Infectious Diseases Week 2019 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives
Nurture connexions
Agenda format which incorporates ample Q&A time
Partake in our revamped exhibitor expo sessions
Meet and listen to the relevant clients
Unprecedented growth creating an unparalleled market place

September 09-10, 2019
Baltimore, USA

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience
It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
World's leading industries and companies attend
Career guidance for early career researchers and students
Provides insights you need to take your research to the next level
A huge conclave of high tech and science priests

EuroSciCon

Infectious Diseases Week

2019

Who'd be attending?

Leading World Microbiologists, Bacteriologists, Virologists, Parasitologists, Epidemiologists, Health care Professionals, Professors, Research fellows, Leading Universities, Students, Directors of association and societies. Infectious Diseases Week 2019 conference brings together individuals who have an interest in different fields of Infectious Diseases like Immunology of Infections, Epidemiology, Parasitosis, Pediatric Infectious Diseases, Communicable Diseases and Non-Communicable Diseases, Health care and other related fields. It is a forum to explore issues of mutual concern as well as exchange knowledge, share evidence, ideas, and generate solutions.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British Society for Immunology. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Infectious Diseases
- Immunology Of Infections
- Epidemiology Of Infectious Diseases
- Parasitosis
- Delusional Parasitosis Or Ekbom Syndrome
- Childhood Infectious Diseases/ Pediatric Infectious Diseases
- Sexually Transmitted Diseases (STDs) / Sexually Transmitted Infections (STIs)
- Communicable Diseases/ Non-Communicable Diseases
- Respiratory/Pulmonary Infectious Diseases
- Veterinary Infectious Diseases
- Zika / Ebola Viruses
- Fungal Infectious Diseases
- Neglected Tropical Infectious Diseases (NTDs)
- Zoonosis
- Host-Pathogen Interactions
- Infection Diseases Control And Safety In Dentistry
- Gene Therapy For Treating Infectious Diseases
- Bioethics In Infectious Diseases Treatment

2019

About Destination Baltimore

Baltimore is the largest city in the State of Maryland, and the 30th-most populous city in the United States. Baltimore was established by the Constitution of Maryland and is an independent city that is not part of any county. Founded in 1729, Baltimore is the second-largest seaport in the Mid-Atlantic. The city's Inner Harbor was once the second leading port of entry for immigrants to the United States and a major manufacturing center. With hundreds of identified districts, Baltimore has been dubbed a "city of neighborhoods". Baltimore has more public statues and monuments per capita than any other city in the country, and is home to some of the earliest National Register Historic Districts in the nation, including Fell's Point, Federal Hill, and Mount Vernon, which were added to the National Register. Baltimore is in north-central Maryland on the Patapsco River close to where it empties into the Chesapeake Bay. The city is also located on the fall line between the Piedmont Plateau and the Atlantic Coastal Plain, which divides Baltimore into "lower city" and "upper city". Baltimore is almost completely surrounded by Baltimore County, but is politically independent of it. It is bordered by Anne Arundel County to the south. Baltimore lies within the humid subtropical climate zone, with four distinct seasons.

Baltimore's history and attractions have allowed the city to become a strong tourist destination on the East Coast. It exhibits examples from each period of architecture over more than two centuries, and work from many famous architects such as Benjamin Latrobe, George A. Frederick, John Russell Pope, Mies van der Rohe and I. M. Pei. The city is rich in architecturally significant buildings in a variety of styles. Baltimore Harbor's restoration has made it "a city of boats", with several historic ships and other attractions on display and open for the public to visit.
