Invitation

Dear Attendees,

Meetings International proudly announces the ***16th International Conference on Laser Materials Processing*** scheduled during ***April 29-30, 2022 in Osaka, Japan***

The conference emphasizes the theme "Estimating the future laser marketing".

The Materials Processing 2022 gathering gives a mind-blowing opportunity to discuss the latest progressions inside the field. This conference brings together the innovations in Materials Processing and brings the key opinion leaders and thought leaders in the field from around the world for two intensive days of scientific presentations, networking as well as engagement with companies developing innovations in tools and technologies in this space. The purpose of Materials Processing 2022 is to provide an international technical forum to showcase recent advances in Materials Processing, Laser, and Advanced Laser Processing. Materials Processing conference operation committee is providing a platform for all the budding young researchers, young investigators to showcase their research and innovation.

Sincerely,

Operating Committee

Explore Osaka

Osaka is a large port city and commercial center on the Japanese island of Honshu. It's known for its modern architecture, nightlife and hearty street food. The 16th-century shogunate Osaka Castle, which has undergone several restorations, is its main historical landmark. It's surrounded by a moat and park with plum, peach and cherry-blossom trees. Sumiyoshi-taisha is among Japan's oldest Shinto shrines.

Ever since OSAKA became known as "the Kitchen of the country", the city has been a gourmet's paradise offering the best from land and sea. Today, the snack produced in Osaka, "OKONIMIYAKI"pancakes and "TAKOYAKI"octopus balls, became famous nationally onto the existing culture were grafted new forms of entertainment, a unique brand of humor and the city's characteristic way of speaking, the OSAKA dialect. The result was a city rich in human color.
