Dear Colleagues,

Meetings international proudly invites all of the people from all around the global to attend "International conference on Mass spectrometry 2018" going to be held during September 17-19 in town of Bridges Venice, Italy. The theme of this conference is "Current emerging trends in mass spectrometry"

Meetings International provides a Global Platform for Researchers , Scientists, Professor , Associate professor , Business delegates of Analytical instrument manufacturing companies and Young researchers to Exchange Ideas, Knowledge and Networking at its 100+ International Conferences.

Mass spectrometry is a powerful analytical technique used to quantify known materials, to identify unknown compounds within a sample, and to elucidate the structure and chemical properties of different molecules.

Conference Highlights :

- Recent Advances and Development in Mass Spectrometry
- Analytical Science and Separation Techniques
- Applications of Mass Spectrometry
- Chromatography and Mass Spectrometry
- Current research in Mass Spectrometry
- Mass Spectrometry Software
- Mass Spectrometry Imaging
- Microbial Diagnostic Applications of Mass Spectrometry
- Mass Spectrometry in Pharmaceutical Analysis
- Mass Spectrometry in Forensic Science
- Mass Spectrometry in Proteomics
- Tandem Mass Spectrometry
- Hyphenated Techniques
- Next-Generation Mass Spectrometry
- Secondary Ion Mass Spectrometry
